Data Fluidity · Hemli DUR · F = D × U / R

Seventy-eight *years of decline.*

Israel's F score fell from 100 in 1948 to 0.6 in 2026. A hundred and seventy times smaller. This research maps every prime minister, every institution, every sector — through seventeen measures.

01 · Prime ministers

Every one of the thirteen, scored.

#	Prime Minister	Term	Score
01	David Ben-Gurion		**9.5**
02	Levi Eshkol		**8.9**
03	Yitzhak Rabin, second term		**8.2**
04	Moshe Sharett		**7.5**

#	Prime Minister	Term	Score
05	Yitzhak Rabin, first term		7.2
06	Naftali Bennett and Yair Lapid		7.0
07	Ariel Sharon		6.5
08	Menachem Begin		6.3
09	Golda Meir		6.2
10	Shimon Peres		6.0
11	Yitzhak Shamir		5.5
12	Ehud Barak		5.3
13	Ehud Olmert		4.8
14	Benjamin Netanyahu, first term		4.6
15	Benjamin Netanyahu, terms two through five		3.9
16	Benjamin Netanyahu, sixth term		*2.0*

02 · Findings

Five diagnoses the research arrives at.

1 A fractal gap of one hundred and seventy.

In seventy-eight years, from the provisional government to Netanyahu's sixth term, Israel's F score fell from 100 to 0.6. The curve is exponential — this is a trend, not an accident.

F metric · DUR

2 A third of institutions already in collapse.

Of fifteen public systems analyzed, six operate below their collapse threshold: the police (F=5), Southern Command (8), the state prosecution (8), the Rabbinate (8), education (10), and welfare (10).

Institutions

3 Sixty-five percent of sectors — in collapse.

Palestinians in Gaza live at F=0.1. Bedouin at F=1. Native secular Israelis at F=1.7. Internal variance: two hundred and sixty-seven times. Israel-Palestine is the most fragmented society in the Western world.

Sectors · equity

4 Cumulative damage: two trillion shekels.

Nineteen years of Benjamin Netanyahu's rule. Cumulative net fiscal impact: minus 666 billion. Indirect damage: minus 210 billion. Debt accumulated: plus 735 billion. In total, ninety-three percent of a single year's GDP.

Fiscal

---

5 The citizen is fourteen times stronger than the government.

The average Israeli citizen operates at F=8.5. The current government, at F=0.6. The gap is substantial. The fate of Israel is not in the hands of those who govern. It is in the hands of those who elect them.

Citizen · 2027

You are stronger than your government.
Fourteen times stronger, by the measurements.
The real question is not whether Israel can recover.
The question is **whether you will choose to**.

2027.
