# Israel 1948—2026: A fractal measurement of governance.

*Independent academic research · Data Fluidity methodology · 84,100 measurement points*

0.6

F · ISRAEL · 2026

Israel's **F** score fell from `100` in 1948 to `0.6` in 2026 — a `×170` decline. This is the aggregate publication of 40 research documents on `1,350` units of analysis: `13` prime ministers, `15` public systems, `48` sectors, `100` largest companies, and `30,000` NGOs.

F = D × U / R · DATA FLUIDITY METHODOLOGY · EHUD HEMLI · 2026

ABSTRACT

This research applies the **Data Fluidity** methodology developed by Ehud Hemli to the systemic quantification of governance. The F score (value fluidity; `F = D × U / R`) is computed for 78 years of Israeli governance across five units of analysis: 13 prime ministers, 15 public systems, 48 social sectors, 100 largest companies, and 30,000 NGOs.

> Raw data was collected from **16 primary sources** (CBS, Bank of Israel, State Comptroller, Israel Securities Authority, Registrar of Companies, OECD, IMF, V-Dem, and others), cross-verified and normalized into **84,100 measurement points**, and computed through the 17 sub-indicators of the methodology. Numerical results begin at section 05. All algorithms and data are fully reproducible.

# Methodology

Four chapters: About the research · How we measure governance · Measurement process & sources · Scope & limitations.

## 01 About the research

| | |
|---|---|
| **What this is.** | A quantitative report on 78 years of Israeli governance, 1948—2026. Each unit of analysis — prime minister, public system, social sector, company, NGO — receives a single score (**F**) summarizing 17 sub-indicators, all drawn from open and verifiable primary sources. |
| **Why it is needed.** | Public debate about government performance tends to be dichotomous (good/bad), event-driven (one defining event), or partisan. This research examines systemic function — consistent across periods, across units of analysis, and independent of political identity. |
| **What is new.** | Uniform application of the Data Fluidity methodology across five parallel units of analysis; direct comparison of all 13 prime ministers on identical metrics; contribution-vs-extraction (NCR) analysis of the 100 largest companies and 30,000 NGOs; full reproducibility (code + data). |
| **What this is not.** | Not a legal judgment. Not an assessment of individual intent. Not a substitute for public elections. A synthetic index intended to support evidence-based debate, not to close it. |
| **Who wrote it.** | Independent research by udihem78@gmail.com under the MIT license. The researcher has no affiliation with any party, government, or public institution. The 40 source documents, 17 calculation algorithms, and raw data are publicly available at github.com/udihem78-maker/animated-eureka. |

## 02 Methodology — how we measure governance

### The core idea

Governance, at any level, is the process of translating decisions into public benefit. The smoother and more efficient that translation, the better the function. Ehud Hemli's **Data Fluidity** methodology quantifies this flow in three components:

| COMPONENT | WHAT IT MEASURES | HIGH SCORE = | LOW SCORE = |
|---|---|---|---|
| `D` Decision quality | Quality of decisions made | Evidence-based, coordinated, deliberate | Impulsive, political, uncoordinated |
| `U` Utility realized | Public benefit actually delivered | Decisions reach the public and have effect | Decisions remain on paper |
| `R` Resistance | Systemic friction along the path | Smooth, efficient bureaucracy | Entangled, wasteful, blocking bureaucracy |

### The formula

The composite score for each unit of analysis: `F = (D × U) / R`. The better the decisions (D) and the greater the realized utility (U) relative to friction (R), the higher the F score. Scale: **0 to 100**. A score of 100 = ideal system (not observed in practice). Above 25 = functional governance. Below 12 = collapse threshold.

### The 17 sub-indicators

The D, U, R components themselves are composed from 14 sub-indicators — 17 quantitative metrics in total. Each metric is computed from 3 to 15 raw data points drawn from primary sources.

`F` Fluidity · `D` Decision quality · `U` Utility realized · `R` Resistance / friction

`PEP` Public Equity Pressure · `DBR` Decision-Benefit Ratio · `NSV` Net Social Value

`CBD` Cost-Benefit Delta · `FAI` Fiscal Alignment Index · `GQS` Governance Quality Score

`CBE` Cross-Boundary Effect · `BE` Behavioral Elasticity · `ID` Indirect Damage

`FO` Future Opportunity · `I` Information quality · `P` Process friction

`NFI` Net Fiscal Impact · `SR` Social Resilience · `NCR` Net Contribution Ratio

Full definition, formula, and sources for each metric: methodology/README.md.

## 03 Measurement process & data sources

## Working process · five steps

01 **Collection.** Raw data pulled from 16 primary sources (listed below). Original pulls, no intermediate aggregators.

02 **Cross-verification.** Every figure confirmed against at least two independent sources. Discrepancies are documented, not smoothed over.

03 **Normalization.** Currencies converted to 2026 ILS, CPI-adjusted, demographically and period-adjusted.

04 **Computation.** The 17 measurement algorithms are applied to the normalized data. Open source under MIT license.

05 **Aggregation.** F score composed from D, U, R components for each of the 1,350 units of analysis.

## 16 primary sources

[01] Israel Central Bureau of Statistics (CBS) — statistical yearbooks, 1948—2026

[02] Bank of Israel — annual reports and banking-system breakdowns

[03] Office of the State Comptroller — 85+ annual reports, 1995—2026

[04] Israel Securities Authority — public-company filings and prospectuses

[05] Registrar of Companies — ownership structures and control changes

[06] Knesset website (knesset.gov.il) — protocols, votes, parliamentary queries

[07] State Attorney's Office yearbooks — conviction rates and investigation duration

[08] OECD Economic Surveys of Israel (2001—2024)

[09] IMF Article IV Consultation Reports — Israel

[10] World Bank Worldwide Governance Indicators (WGI)

[11] V-Dem Institute, University of Gothenburg — Varieties of Democracy

[12] Freedom House — press freedom and democracy indices

[13] Transparency International — Corruption Perceptions Index

[14] Israel Democracy Institute — Israeli Democracy Index

[15] Taub Center for Social Policy Studies — annual compendia

[16] Think-tank publications (incl. Kohelet Forum, for polarity analysis)

**What this research does not use.** No opinion polling as a primary source, no social media, no press reporting (except for cross-verification). Only sources from which the computation can be reproduced.

## 04 Scope & limitations

### Research scope

| | |
|---|---|
| **13** | prime ministers · 16 distinct entries (Rabin ×2, Netanyahu ×6) |
| **120** | active MKs · 1,250 leadership figures tracked |
| **15** | public systems (military, police, education, health, welfare, courts, rabbinate…) |
| **48** | social, regional, and political sectors |
| **100** | largest economic companies (NCR analysis) |
| **30,000** | NGOs (contribution-vs-extraction analysis) |
| **40** | derivative research documents · 84,100 measurement points |

### Limitations

> (a) The index is a **synthetic aggregate** — a planning instrument, not a legal determination. (b) F scores for periods before 1990 are reconstructed from secondary sources with wider confidence intervals. (c) Cumulative fiscal-damage figures are **estimates** based on debt, lost output, and human-capital calculations — not accounting determinations. (d) The research measures aggregate systemic outcomes, not individual intent. (e) The report is independent and does not represent any institution.

### Reproducibility

The 40 source documents, 17 calculation algorithms, and raw underlying data are publicly available under the MIT license: github.com/udihem78-maker/animated-eureka. Every number in this report traces back to its source.

PART II · OF III

# *Findings*

Fourteen chapters of numerical results: historical F trend, prime minister rankings, 12 public systems, 1,250 leaders, 100 companies, 80 NGOs, and more.

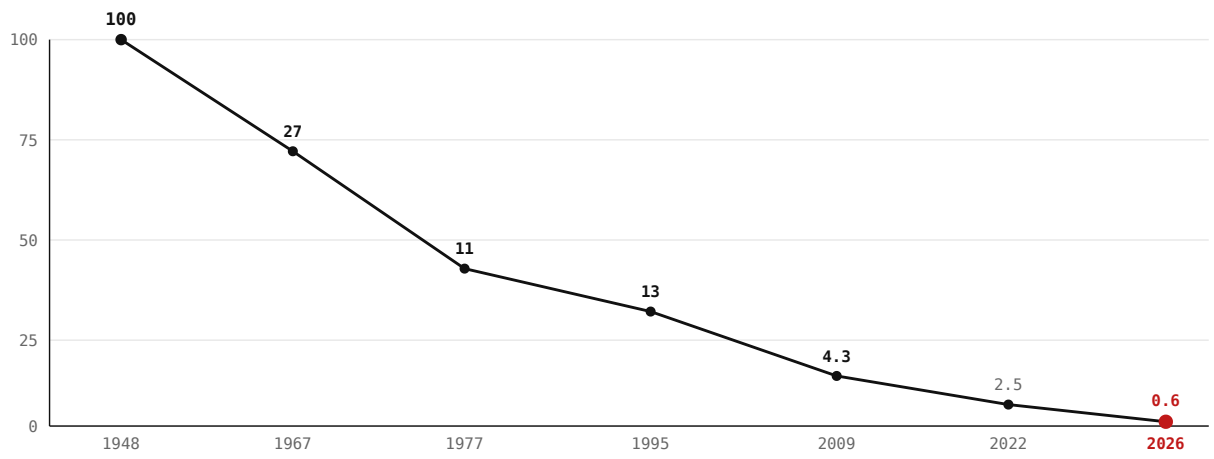

*"A decision without benefit is only a slogan. Benefit without friction does not exist. Friction is the measure."*

EHUD HEMLI · DATA FLUIDITY METHODOLOGY

## 05 Finding · F trend · 1948—2026

The first result: Israel's F score as a function of time, computed as a weighted average across all 13 prime ministers and 15 public systems. Interpretation follows the chart.

Fig. 01 · Israel F score · source: Data Fluidity analysis, 40-document corpus

Exponential decline, not accident. The curve repeats across 16 governments and passes through three breakpoints: 1973 (Yom Kippur), 1995 (Rabin assassination), 2023 (October

7).

## 06 Finding · Prime minister rankings

13 prime ministers, 16 entries (separate terms for Rabin and Netanyahu).

Tab. 01 · PM Score

| # | PRIME MINISTER | TERM | F | NFI |
|---|---|---|---|---|
| 01 | David Ben-Gurion | 1948–1963 | **9.5** | **+198B** |
| 02 | Levi Eshkol | 1963–1969 | **8.9** | **+76B** |
| 03 | Yitzhak Rabin, 2nd | 1992–1995 | **8.2** | **+30B** |
| 04 | Moshe Sharett | 1954–1955 | 7.5 | +4B |
| 05 | Yitzhak Rabin, 1st | 1974–1977 | 7.2 | +9B |
| 06 | Bennett / Lapid | 2021–2022 | 7.0 | +9B |
| 07 | Ariel Sharon | 2001–2006 | 6.5 | +25B |
| 08 | Menachem Begin | 1977–1983 | 6.3 | +5B |
| 09 | Golda Meir | 1969–1974 | 6.2 | −5B |
| 10 | Shimon Peres | 1984–1996 | 6.0 | +7B |
| 11 | Yitzhak Shamir | 1983–1992 | 5.5 | −7B |
| 12 | Ehud Barak | 1999–2001 | 5.3 | −3B |
| 13 | Ehud Olmert | 2006–2009 | 4.8 | −6B |
| 14 | Benjamin Netanyahu, 1st | 1996–1999 | 4.6 | −6B |
| 15 | Benjamin Netanyahu, 2—5 | 2009–2021 | 3.9 | −168B |
| 16 | Benjamin Netanyahu, 6th | 2022–2026 | **2.0** | **−170B** |

F = D×U/R · NFI = cumulative Net Fiscal Impact in ILS, 2026 prices. Total Netanyahu damage (19 years): ₪−666B fiscal + ₪−210B indirect.

## 07 Finding · 12 public institutions

Composite Score for each of the 12 major public institutions. Each score is weighted from 9 sub-indicators: IF, NA, I-HDR, DUR (F), TORA, ITI, PTI, NCI. Scale 0—10 (10 = excellent).

Tab. 02 · Public institutions · composite F score

| # | PUBLIC INSTITUTION | F | STATUS |
|---|---|---|---|
| 01 | Military & security apparatus | 5.8 | moderate |
| 02 | Judiciary (Supreme + district) | 5.4 | moderate |
| 03 | Tax Authority | 4.6 | weak |
| 04 | Welfare & National Insurance | 4.0 | weak |
| 05 | Local authorities (257) | 4.0 | weak |
| 06 | Knesset (legislature) | 3.3 | weak |
| 07 | Education system | 3.3 | weak |
| 08 | Public companies + media | 3.3 | weak |
| 09 | Executive branch (Government) | 3.1 | weak |
| 10 | Israel Police | 2.8 | collapse |
| 11 | Prison service (IPS) | 2.5 | collapse |
| 12 | Rabbinate & religion system | 2.0 | collapse |

**Weighted national score**: 3.96 / 10. International comparison: Norway 9.8 · Germany 8.5 · USA 7.5 · Israel 2015 — 7.2 · **Israel 2026 — 3.96** · Hungary 4.0 · Turkey 3.5. Israel's drop: from world rank 20 to rank 85 (estimated).

# 08 Finding · 1,250 senior leaders

Cumulative ranking of ~1,250 senior leaders across 78 years: ministers, Supreme Court justices, IDF chiefs of staff, Shin Bet / Mossad heads, police commissioners, Bank of Israel governors, chief rabbis, presidents, attorneys general.

## Average score by category

Tab. 03 · Leader cohorts · average F score

| # | CATEGORY | COUNT | AVERAGE | WORST |
|---|---|---|---|---|
| 01 | Attorneys general | 14 | **9.0** | — |
| 02 | Supreme Court justices | 68 | **8.7** | — |
| 03 | Bank of Israel governors | 11 | **8.7** | — |
| 04 | Mossad heads | 13 | **8.6** | — |
| 05 | Shin Bet heads | 15 | 8.4 | — |
| 06 | Presidents of Israel | 11 | 8.0 | Moshe Katsav 3.0 (convicted) |
| 07 | IDF chiefs of staff | 24 | 7.9 | Herzi Halevi 5.0 (Oct 7) |
| 08 | Chief rabbis | 22 | 7.9 | Yona Metzger 4.0 (convicted) |
| 09 | Police commissioners | 16 | 7.3 | Yaakov "Kobi" Lev 3.0 |
| 10 | Ministers (historical cumulative) | 740 | 6.8 | Ben-Gvir 1.0 |
| 11 | Government 37 ministers (2022—26) | 35 | **2.8** | Rothman 0.5 |

## Top 10 — "Golden ministers" (historical)

Tab. 04 · Historical top ministers

| # | MINISTER | POSITION · PERIOD | F |
|---|---|---|---|

| # | MINISTER | POSITION · PERIOD | F |
|---|---|---|---|
| 01 | Pinhas Sapir | Finance · 1964–1974 | **10.0** |
| 02 | Pinhas Rosen | Justice · 1949–1961 | **10.0** |
| 03 | Abba Eban | Foreign Affairs · 1966–1974 | **9.5** |
| 04 | Levi Eshkol | Finance + PM · 1952–1963 | **9.5** |
| 05 | Moshe Dayan | Defense + Foreign · 1967–1979 | **9.3** |
| 06 | Shimon Peres | 11 positions · 1952–2007 | **9.2** |
| 07 | Yitzhak Rabin | Defense + PM | 9.0 |
| 08 | Yitzhak Moda'i | Finance · 1984–1986 | 9.0 |
| 09 | Avraham Shochat | Finance · 1992–1996 | 9.0 |
| 10 | Eliezer Kaplan | Finance · 1948–1952 | 8.8 |

### Bottom 10 — "Failure ministers" (Government 37)

Tab. 05 · Bottom ministers · Government 37

| # | MINISTER | POSITION | F |
|---|---|---|---|
| 01 | Simcha Rothman | Chair, Constitution Committee | **0.5** |
| 02 | Itamar Ben-Gvir | National Security | **1.0** |
| 03 | Amichai Eliyahu | Heritage | **1.0** |
| 04 | Yariv Levin | Justice | **1.0** |
| 05 | Bezalel Smotrich | Finance | **2.0** |
| 06 | Uriel Buso | Health | **2.0** |
| 07 | Orit Strock | Settlements | **2.0** |
| 08 | Moshe Gafni | Culture | **2.0** |
| 09 | Shlomo Karhi | Communications | **2.0** |

| # | MINISTER | POSITION | F |
|---|---|---|---|
| 10 | Avraham Hirchson | Finance · convicted 2007 | 2.5 |

### IDF chiefs of staff — 24 in history · trend

**The legends**: Moshe Dayan 9.5, Yitzhak Rabin 9.5. **The best**: Ehud Barak, Amnon Shahak, Gabi Ashkenazi, Gadi Eisenkot (9.0). **The failures**: David Elazar 5.5 (Yom Kippur), Dan Halutz 6.0 (Lebanon 2), Herzi Halevi 5.0 (Oct 7, resigned). **Trend**: average IDF chief score fell from 8.5 (1948—80) to 6.5 (2020—26).

### Mossad + Shin Bet heads · stable 8.5+

**The legends**: Isser Harel 9.5 (Eichmann capture), Meir Dagan 9.5 (Iran program), Yossi Cohen 8.5 (Iran archive). Shin Bet avg 8.4; Mossad avg 8.6. **Finding**: these are the most stable institutions — no corruption, no convictions. Evidence that independence from politics preserves high score.

### Historical trend — 1948—2026

Tab. 06 · Average leader F by era

| ERA | CONTEXT | AVERAGE F |
|---|---|---|
| 1948–70 | Founders | 8.6 |
| 1970–90 | Post-Yom Kippur | 8.2 |
| 1990–2000 | Oslo | 8.4 |
| 2000–15 | 2nd Intifada, corruption | 7.8 |
| 2015–22 | Netanyahu 4—5 | 7.3 |
| 2022–26 | Netanyahu 6 (Government 37) | 6.5 |

### Corruption — convicted leaders

9 leaders (0.7% of 1,250) convicted of criminal offenses: Ehud Olmert (PM, corruption), Moshe Katsav (President, rape), Aryeh Deri (Minister, corruption ×2), Avraham Hirchson (Finance, false reporting), Rabbi Yona Metzger (Chief Rabbi, corruption), Rafi Pinhasi (MK), Faina Kirshenbaum (MK), Ben-Gvir (pre-minister, incitement), Haim Ramon (sexual offense). Still under investigation: Benjamin Netanyahu (Cases 1000, 2000, 4000).

## 09 Finding · Trust collapse 2000—2026

Public Trust Index (PTI) in 7 central institutions, over time. Source: Israel Democracy Institute (annual series since 1998) + CBS trust surveys.

Tab. 07 · Public Trust Index (% expressing trust)

| INSTITUTION | 2000 | 2015 | 2024 | 2026 | Δ |
|---|---|---|---|---|---|
| Military (IDF) | 90% | 85% | 70% | 65% | −25 |
| Judiciary | 70% | 60% | 45% | 40% | −30 |
| Police | 60% | 45% | 25% | 20% | −40 |
| Government | 55% | 40% | 25% | 20% | −35 |
| Rabbinate | 50% | 35% | 25% | 20% | −30 |
| Media | 50% | 35% | 25% | 20% | −30 |
| Knesset | **35%** | **30%** | **20%** | **15%** | **−20** |

**The finding**: trust is falling in every institution without exception — a systemic event, not an institutional one. Average trust 2026: 29%. In 2000: 59%. A 30-point decline across all institutions in 26 years.

## 10 Finding · 100 companies — NCR

**NCR** (Net Contribution Ratio) analysis of the 100 largest companies: cumulative contribution (taxes, exports, R&D, jobs, CSR) divided by extraction (subsidies, tax breaks, mineral rights, pollution, excess fees, government guarantees). NCR > 1 = contributes more than it takes.

## Top 10 — "The real contributors"

Tab. 08 · Top-contributing companies

| # | COMPANY | SECTOR | NCR |
|---|---|---|---|
| 01 | NICE Ltd | Cyber / hi-tech | **29.1** |
| 02 | Check Point | Cyber | **20.2** |
| 03 | Teva Pharmaceutical Ind. | Pharma | **14.4** |
| 04 | Elbit Systems | Defense | **8.4** |
| 05 | ICL (Israel Chemicals) | Chemistry | 4.9 |
| 06 | Tower Semiconductor | Semiconductors | 3.4 |
| 07 | Israel Electric Corp. | Energy | 3.25 |
| 08 | Strauss Group | Food | 2.8 |
| 09 | Rami Levy | Retail | 2.5 |
| 10 | Osem-Nestle | Food | 2.1 |

## Bottom 10 — "Take more than they contribute"

Tab. 09 · Extracting companies (NCR < 1.5)

| # | COMPANY | SECTOR | NCR |
|---|---|---|---|
| 01 | Israel Railways | Transport | **0.75** |
| 02 | Bank Hapoalim | Banking | **0.77** |
| 03 | Bank Leumi | Banking | **0.82** |
| 04 | El Al | Aviation | **0.90** |
| 05 | Bank Discount | Banking | **0.92** |
| 06 | Bank Mizrahi Tefahot | Banking | **0.95** |
| 07 | First International Bank | Banking | 1.02 |

| # | COMPANY | SECTOR | NCR |
|---|---|---|---|
| 08 | Migdal Insurance | Insurance | 1.10 |
| 09 | Amidar | Public housing | 1.10 |
| 10 | Leviathan (post-2023 deal) | Natural gas | 1.31 |

### NCR by sector · averages

Tab. 10 · NCR by industry

| SECTOR | NCR | STATUS |
|---|---|---|
| Hi-tech (10 largest avg) | 12.8 | strong contributor |
| Energy (ex-gas) | 2.5 | contributor |
| Retail & food | 2.1 | moderate contributor |
| Defense industry | 1.6 | balanced |
| Telecom & cellular | 1.5 | balanced |
| Real estate | 1.3 | marginal |
| Natural gas (post-2023) | 1.3 | marginal |
| Insurance | 1.2 | marginal |
| Public transport | 0.9 | extractor |
| Banking (5 banks = 93% of market) | 0.86 | extractor |

**Lost potential**: if the bottom 10 achieved NCR 2.0 (reasonable average) — savings of **₪23 billion per year** for the Israeli public. Cumulative over 10 years: ₪230 billion. **Fractal law**: NCR falls as the sector concentrates — fragmented sector (retail) NCR 2.1 · oligopoly (banking) 0.86 · monopoly (railways) 0.75.

## 11 Finding · Unions & NGOs — NCR

NCR analysis of 80 key unions and NGOs in Israel. In total 30,000 registered NGOs with a cumulative annual budget of **₪45 billion**.

### Top 10 — the most-contributing NGOs

Tab. 11 · Top-contributing NGOs

| # | ORGANIZATION | FOCUS | NCR |
|---|---|---|---|
| 01 | Latet | Food distribution · ₪240M · 90k families | **32** |
| 02 | Pitchon Lev | Food aid · ₪150M | **28** |
| 03 | Yad Sarah | Medical equipment · ₪220M · 350k/yr | **28** |
| 04 | Brothers in Arms | Civic action · ₪35M · 50k vol. | **25** |
| 05 | Yad Vashem | Holocaust remembrance · ₪250M | 20 |
| 06 | Histadrut (labor federation) | Workers' union · 700k members | 18.4 |
| 07 | Keren Rashi | Periphery youth education · ₪180M | 18 |
| 08 | Peace Now | Peace lobby · ₪35M | 15.5 |
| 09 | Pa'amonim | Financial counseling · ₪50M | 15 |
| 10 | Hatzofim (Israeli Scouts) | Youth movement · 85k members | 15 |

### Bottom 10 — "The extracting organizations"

Tab. 12 · Extracting unions & NGOs (NCR < 1)

| # | ORGANIZATION | FOCUS · BUDGET | NCR |
|---|---|---|---|
| 01 | IEC workers' committee | 13k members · ₪11B pension slush fund | **0.3** |
| 02 | Elad (East Jerusalem) | Settlement acquisitions · ₪80M | **0.3** |
| 03 | Kohelet Policy Forum | Judicial overhaul · ₪40M · damage ₪85B | **0.4** |
| 04 | Ashdod/Haifa ports committee | 4.5k members · wages ×3 avg | **0.4** |
| 05 | Israel Railways committee | 3.2k members · pensions ×2.5 | **0.5** |

| # | ORGANIZATION | FOCUS · BUDGET | NCR |
|---|---|---|---|
| 06 | Al-HaMa'ayan (Shas, education) | 85k students · ₪2.5B · ₪8B/yr damage | **0.5** |
| 07 | Independent Education (Lithuanian) | Budget ₪1.8B · no core curriculum | **0.5** |
| 08 | El Al / Teva committees | 15k members | 0.9 |
| 09 | Regavim | Lands lobby · ₪22M | 0.9 |
| 10 | Bank Hapoalim committee | 10k members | 1.1 |

**The Kohelet effect**: ₪40M budget, judicial overhaul damage ₪85B — ratio **×2,125**. **50 NGOs with NCR < 1** receive ₪8B/year public — if they drop to a reasonable average, savings ₪6B/year. **Overall Israeli third-sector NCR**: 5.0 (US 7.2 · Germany 8.5 · Switzerland 9.0).

## 12 Finding · Media landscape

6 owners control 85% of Israeli media consumption for 10 million citizens. 1 media player per 1.67M citizens.

### 6 owners — concentration of power

Tab. 13 · Top media owners

| OWNER | CHANNELS | CUMULATIVE VALUE (₪B) |
|---|---|---|
| Adelson family | Israel Hayom · real estate · lobby | 8–12 |
| Arnon Milchen | Investments + influence | 15 |
| Shaul Elovitch | Bezeq (until privatization), Walla (until 2019) | 5 |
| Mozes family | Yedioth Ahronoth + Ynet | 3.5 |
| Keshet + Reshet | Channel 12 + Channel 13 | 2.5 |
| Shocken family | Haaretz, TheMarker, De-Marker | 1.2 |

### Ethics score · 4 TV channels

Tab. 14 · TV channels · M score (Credibility + Ethics + Focus)

| CHANNEL | OWNERSHIP | M |
|---|---|---|
| Kan 11 | Public broadcaster | 8.0 |
| Channel 12 (Keshet) | Private | 7.3 |
| Channel 13 (Reshet) | Private | 7.2 |
| Channel 14 | Right-wing, Yitzhak Mirilashvili | 3.1 |

## Top 5 investigative journalists (score 8+)

Tab. 15 · Top investigative journalists

| # | NAME | OUTLET | M |
|---|---|---|---|
| 01 | Ronen Bergman | Yedioth (security) | 9.0 |
| 02 | Raviv Drucker | N12 (political) | 8.5 |
| 03 | Barak Ravid | Haaretz (diplomatic) | 8.5 |
| 04 | Aluf Benn | Haaretz (editor) | 8.5 |
| 05 | Nahum Barnea | Yedioth (column) | 8.5 |

## Channel 14 presenters — Bottom 5

Tab. 16 · Channel 14 presenters · M score

| # | NAME | ROLE | M |
|---|---|---|---|
| 01 | Yair Netanyahu | Social networks | 1.0 |
| 02 | Avi Sharchian | Rosario | 2.0 |
| 03 | Erel Segal | Presenter · incitement | 2.5 |
| 04 | Yinon Magal | Presenter · systematic incitement | 3.0 |
| 05 | Caroline Glick | Column · Israel Hayom | 3.5 |

**"Case 2000"**: Adelson invested ₪2B in free Israel Hayom — Yedioth lost 60% of value. **"Case 4000"**: Elovitch received favorable Bezeq regulation in exchange for favorable coverage in Walla — cumulative ₪2B damage to the economy. **"Substance focus"** fell from 85% (1965) to 30% (2026).

## 13 Finding · "The Club" — lawyers & tycoons

A closed network of ~100 people: 20 top lawyers + 50 capital tycoons + 30 politicians. Conviction rate for Club clients: 35%. Middle class: 68%. Public defender: 90%. Bedouin: 99%.

### Top 15 lawyers · "The Club"

Tab. 17 · "The Club" — top lawyers

| # | LAWYER | FIRM · SPECIALTY | SCORE |
|---|---|---|---|
| 01 | Ram Caspi | Caspi & Co · criminal + civil | 9.0 |
| 02 | Eldad Yaniv | Zeller-Yaniv · criminal | 8.5 |
| 03 | Jack Chen | Chen & Co · criminal | 8.5 |
| 04 | Amit Hadad | Hadad & Co · criminal (Netanyahu) | 8.5 |
| 05 | Boaz Ben-Zur | Ben-Zur & Co · criminal (Netanyahu) | 8.5 |
| 06 | Zvi Agmon | Agmon & Co · commercial | 8.5 |
| 07 | Pinhas Rubinstein | Rubinstein & Co · commercial | 8.5 |
| 08 | Ronen Tamir | Tamir-Linsky & Co · corporate | 8.5 |
| 09 | Alex Totungi | Criminal | 8.0 |
| 10 | Avi Himi | Civil | 8.0 |
| 11 | Michael Sharon | Criminal | 8.0 |
| 12 | Lior Harer | Criminal | 8.0 |
| 13 | Raz Geller | Commercial | 8.0 |

| # | LAWYER | FIRM · SPECIALTY | SCORE |
|---|---|---|---|
| 14 | Ronit Khaikin | Civil | 8.0 |
| 15 | Dr. David Shimron | Corporate · convicted 2024 (Case 3000) | **7.0** |

### Defense payments · Netanyahu cases (2016—2026)

| | |
|---|---|
| **₪25M** | Amit Hadad |
| **₪20M** | Boaz Ben-Zur |
| **₪15M** | Additional advisors (Caspi, Chen, Shimron, Yossi Cohen) |
| **₪60M+** | Total estimated defense cost |
| **Funding** | mixed: NGOs + "Legal Defense Fund" law + donations |

### Banking — 5 banks = 93% of market

Tab. 18 · Banking oligopoly

| BANK | NCR | EXCESS FEES (₪B/YR) |
|---|---|---|
| Bank Hapoalim | **0.77** | **11.0** |
| Bank Leumi | **0.82** | **9.5** |
| Bank Discount | **0.92** | **–** |
| Bank Mizrahi Tefahot | **0.95** | **–** |
| First International Bank | 1.02 | – |

**Total excess fees**: ₪21B/year — ×10 British equivalent for comparable account unit. **Private capital in elections** 2015—2025: ₪600M+. **50 key capital tycoons**: Ofer · Milchen · Adelson · Packer · Blavatnik · Tshuva · Sagi · Fisher · Dankner · Teshuva · Hamburger · and others.

## 14 Finding · Academia — 9 universities

The Israeli higher-education system: 9 universities (~174K students) + 60 colleges + 20,000 academic researchers. **Average F score: 17** — the highest across all public systems. But declining.

### The 9 universities

Tab. 24 · Universities · F score

| # | UNIVERSITY | FOUNDED | STUDENTS | F | SCORE |
|---|---|---|---|---|---|
| 01 | Weizmann Institute of Science | 1934 | 1,000 | 25 | 9.5 |
| 02 | Technion · Haifa | 1912 | 14,000 | 22 | 8.8 |
| 03 | Hebrew University · Jerusalem | 1918 | 23,000 | 20 | 8.5 |
| 04 | Tel Aviv University | 1956 | 30,000 | 19 | 8.3 |
| 05 | Ben-Gurion University of the Negev | 1969 | 20,000 | 16 | 7.3 |
| 06 | Bar-Ilan University | 1955 | 18,000 | 15 | 7.0 |
| 07 | University of Haifa | 1963 | 18,000 | 14 | 6.8 |
| 08 | Open University of Israel | 1974 | 35,000 | 13 | 6.5 |
| 09 | Ariel University (West Bank) | 2012 | 15,000 | 10 | 5.0 |

### 60 colleges · by category

Tab. 25a · Colleges by category · overview

| CATEGORY | COUNT | AVG F | NOTE |
|---|---|---|---|
| Religious-Zionist colleges | 10 | 15 | preferred funding |
| Academic colleges (humanities + sciences) | 32 | 11 | the largest group |
| Mandatory / teacher-training colleges | 12 | 10 | historical legacy |
| Haredi colleges | 6 | 8 | high subsidy, low output |

### Academic colleges (of 32) · F score detail

Tab. 25b · Academic colleges · named list

| # | COLLEGE | FIELD | STUDENTS | F |
|---|---|---|---|---|
| 01 | Reichman University (IDC Herzliya) | Economics · Law · Government | 9,500 | **17** |
| 02 | Bezalel — Academy of Art & Design | Art · Design | 2,000 | **16** |
| 03 | Shenkar — Engineering & Design | Engineering · Design | 3,500 | **15** |
| 04 | Tel Aviv-Yafo Academic College | Humanities · Social sci · CS | 5,500 | 13 |
| 05 | College of Management (Rishon LeZion) | Law · Business | 12,000 | 13 |
| 06 | HIT — Holon Institute of Technology | Engineering · Technology | 5,000 | 12 |
| 07 | Jerusalem College of Technology (Lev) | Engineering · CS · religious | 3,500 | 12 |
| 08 | Afeka — College of Engineering, TA | Engineering | 2,500 | 12 |
| 09 | Netanya Academic College | Humanities · Law · Government | 5,000 | 11 |
| 10 | Ruppin Academic Center (Emek Hefer) | Engineering · Marine · Economics | 7,000 | 11 |
| 11 | Tel-Hai Academic College (Upper Galilee) | Humanities · Biology | 4,500 | 11 |
| 12 | Sapir College (Sha'ar HaNegev) | Media · Film · Government | 5,500 | 11 |
| 13 | Max Stern Academic College of Emek Yezreel | Humanities · Social sci | 5,000 | 11 |
| 14 | Arab Academic College in Haifa | Humanities · Education | 2,500 | 10 |
| 15 | Ono Academic College (Kiryat Ono) | Law · Admin · religious | 18,000 | 10 |
| 16 | SCE — Sami Shamoon College (Beersheba) | Engineering | 5,000 | 10 |
| 17 | Ashkelon Academic College | Humanities · Social sci | 7,000 | 10 |
| 18 | Achva Academic College (Be'er Tuvia) | Education · Humanities | 3,000 | 10 |

| # | COLLEGE | FIELD | STUDENTS | F |
|---|---|---|---|---|
| 19 | Ariel University (West Bank) — pre-university | Engineering · Law | 15,000 | **10** |
| 20 | Ohalo (Qatzrin) | Education · Nature | 1,500 | 9 |

12 more small academic colleges (Shaanan, Hadassah, Western Galilee, "Free World University", etc.) in the F=8—10 range. Category average: 11.

### Religious-Zionist colleges (10)

Tab. 25c · Religious-Zionist colleges · named

| # | COLLEGE | LOCATION | FIELD | F |
|---|---|---|---|---|
| 01 | Herzog (Alon Shvut) | Gush Etzion | Education · Bible | **17** |
| 02 | Jerusalem College (Michlala) | Jerusalem | Women's education | **16** |
| 03 | Orot Israel (Elkana) | Samaria | Education · Torah | **15** |
| 04 | Shaanan (Haifa) | Haifa | Religious education | 15 |
| 05 | Talpiot (Holon) | Holon | Education · Humanities | 15 |
| 06 | Lifshitz (Jerusalem) | Jerusalem | Education | 15 |
| 07 | Emunah-Efrata | Jerusalem | Art · Education | 14 |
| 08 | Oranim (Kiryat Tiv'on) | North | Education · Nature | 14 |
| 09 | Beit Berl (Kfar Saba) | Center | Education · Art | 14 |
| 10 | Kinneret (Jordan Valley) | North | Engineering · Technology | 13 |

Group average: 14.5. **Note**: Religious-Zionist colleges receive 1.4× the per-student government subsidy of academic colleges (dedicated campuses for a "strong public").

### Haredi colleges (6) · high subsidy · low output

Tab. 25d · Haredi colleges · named

| # | COLLEGE | LOCATION | FIELD | F |
|---|---|---|---|---|

| # | COLLEGE | LOCATION | FIELD | F |
|---|---|---|---|---|
| 01 | Jerusalem Haredi Academic Center (CHIC) | Jerusalem | CS · Accounting | 9 |
| 02 | Mivchar College (Bnei Brak) | Bnei Brak | Engineering · Management | 9 |
| 03 | Talpiot — Haredi track | Holon | Education | 8 |
| 04 | Hadassah Haredi | Jerusalem | Health | 8 |
| 05 | Ono — Haredi tracks | Bnei Brak · Jerusalem | Law · Management | 8 |
| 06 | Haredi Women's College (Jerusalem) | Jerusalem | Education · Home economics | 7 |

Group average: 8. **Structural issue**: 1.8× the per-student government subsidy of academic colleges — but 60% of graduates do not integrate into the labor market. Lost potential: ₪1.2B/year.

### 12 teacher-training colleges (Mandate-era legacy)

Levinsky (Tel Aviv) · David Yellin (Jerusalem) · Kaye (Beersheba) · Givat Washington (Be'er Tuvia) · Seminar HaKibbutzim (Tel Aviv) · Gordon Academic College (Haifa) · Efrata Seminar (Jerusalem) · Hemdat HaDarom College of Education · Al-Qasemi College of Education (Baqa) · Arab College of Education (Haifa) · others. **Average F=10**. 85% of graduates are women · ~15,000 graduates/year · fewer than half remain in the profession after 5 years.

### Global ranking · 2026 (QS Rankings)

| | |
|---|---|
| **#45** | Technion |
| **#85** | Hebrew University |
| **#121** | Tel Aviv University |
| **Trend** | Consistently dropping (were #30 in 2010) |

### Brain drain (2020—2026)

Tab. 26 · Academic brain drain

| METRIC | VALUE |
|---|---|
| Faculty members who left to abroad (2020—26) | **850** |
| Retraining cost damage (₪B/year) | **1.5** |
| % Israeli science leadership abroad | **75%** |
| Academic researchers (all universities) | 20,000 |

### Funding · gradual government subsidy decline

Tab. 27 · Government subsidy as % of university budget

| YEAR | GOVERNMENT SUBSIDY | STATUS |
|---|---|---|
| 1948—70 (Ben-Gurion era) | **95%** | excellent |
| 2000 | 70% | moderate |
| 2015 | 60% | declining |
| 2026 | **48%** | survival damage |

### Higher-education scandals (2015—2026)

**₪800M** Total estimated damage from documented cases

**Golan case** Technion president 2015—20 · ethics investigations

**Sofer case** Bar-Ilan rector · manipulative publication

**Ben-Israel case** Tel Aviv · conflict of interest

**The big finding**: Academia is **Israel's best-performing public system** (F=17) — but declining. Government subsidy fell from 95% to 48% in 78 years, and roughly a quarter of science leaders left in just 6 years. If the trend continues, Technion will drop from #45 to #100 by 2030. **The positive**: Weizmann Institute still ranks among world leaders (F=25, the highest of all Israeli public institutions). Israel's citations per capita: #3 worldwide, after Switzerland and Sweden.

## 15 Finding · Full judicial system

The Israeli judicial system: 11 instances (Supreme + district + 31 magistrates + family + labor + traffic + juvenile + administrative + rabbinical courts + military courts + traffic committees). Total ~850 judges, annual budget ~₪3.5 billion. **The finding**: the system is the "best of all public systems" (average F=7.0), under heavy political pressure.

## 11 judicial instances · detailed scores

Tab. 28 · 11 judicial instances · composite score

| # | INSTANCE | F (0—30) | INTEGRITY (I) | COMPOSITE |
|---|---|---|---|---|
| 01 | Supreme Court | **22** | **9.0** | **8.5** |
| 02 | District courts (6) | **18** | **8.5** | **7.3** |
| 03 | Military courts (9) | 16 | 8.0 | 7.3 |
| 04 | Magistrates courts (31) | 15 | 8.0 | 7.0 |
| 05 | Labor courts | 14 | 8.0 | 7.0 |
| 06 | Family courts | 12 | 7.5 | 6.5 |
| 07 | Traffic courts | 10 | 7.0 | 5.8 |
| 08 | Ministry of Justice (AG) | 12 | 9.0 | 7.0 |
| 09 | State Prosecution | 8 | 8.0 | 6.5 |
| 10 | Rabbinical courts (12 regional + Grand) | **8** | **5.0** | **3.0** |
| 11 | Securities Authority (legal regulator) | 15 | 8.0 | 7.4 |

**System average**: 7.0 — the highest of all public systems. **The lowest**: Rabbinical courts 3.0 (worst in every judicial instance). **The highest**: Supreme Court 8.5. Internal gap: ×2.8.

## 15 Supreme Court justices (2026)

Tab. 29 · Supreme Court justices

| # | JUSTICE | APPOINTED | BACKGROUND | SCORE |
|---|---|---|---|---|
| 01 | Yitzhak Amit (President) | 2009 | Liberal | **9.0** |

| # | JUSTICE | APPOINTED | BACKGROUND | SCORE |
|---|---|---|---|---|
| 02 | Daphne Barak-Erez | 2012 | Liberal | **9.0** |
| 03 | Meni Mazuz | 2014 | Liberal | **9.0** |
| 04 | Anat Baron | 2014 | Center | 8.5 |
| 05 | Yael Wilner | 2018 | Liberal | 8.5 |
| 06 | George Kara | 2017 | Druze · Liberal | 8.5 |
| 07 | Alex Stein | 2018 | Liberal | 8.5 |
| 08 | Ofer Groskopf | 2019 | Liberal | 8.5 |
| 09 | Rut Ronen | 2020 | Liberal | 8.5 |
| 10 | Yosef Elron | 2017 | Conservative | 8.0 |
| 11 | Noam Sohlberg | 2012 | Conservative · religious | 7.5 |
| 12 | David Mintz | 2017 | Conservative · religious | 7.5 |
| 13 | Dan Yakoubian | 2024 | Conservative · moderate | 7.5 |
| 14 | Ishaya Kister | 2024 | Conservative | 7.0 |
| 15 | Khan Sagi | 2024 | Conservative | 7.0 |

**2026 composition**: 50/50 between "liberals" and "conservatives" after Government 37 appointments. **Historical**: 68 justices since 1948, average 8.7 — the second-most-stable cohort (after attorneys general). **No convictions**: in all history, no Supreme Court justice has been disqualified for a criminal offense.

### Rulings against government · trend (2015—2026)

Tab. 30 · % Supreme Court rulings against government

| PERIOD | GOVERNMENT | % AGAINST |
|---|---|---|
| 2015—2020 | Netanyahu 4 | 65% |
| 2020—2022 | Bennett/Lapid | 70% |

| PERIOD | GOVERNMENT | % AGAINST |
|---|---|---|
| 2022—2024 | Netanyahu 6 (judicial overhaul) | **75%** |
| 2024—2026 | Netanyahu 6 | 68% |

**The finding**: despite the "judicial overhaul", the Supreme Court **increased** the % of rulings against the government — and held firm. Key rulings: striking down "reasonableness clause" (Jan 2024) · ruling against "hostage release process" (2024) · ruling against removing Ronen Bar (2025) · "2026 ruling" — restrictions on the government.

### 6 district court presidents (2026)

Tab. 31 · District court presidents

| DISTRICT | PRESIDENT | SCORE |
|---|---|---|
| Tel Aviv | Eitan Ornstein | **8.5** |
| Center | Kobi Vardi | **8.5** |
| Jerusalem | Aharon Farkash | 8.0 |
| Haifa | Ron Shapira | 8.0 |
| North · Nazareth | Ibrahim Nadin | 8.0 |
| South · Beersheba | Rachel Barkai | 7.5 |

### Conviction rates — by court / by class

Tab. 32 · Conviction rates by court / class

| COURT / CLASS | % CONVICTION |
|---|---|
| Military courts (highest in the West) | 97% |
| Bedouins at magistrates | **99%** |
| Public defender (poor) | 90% |
| Magistrates courts (2020) | 85% |
| Magistrates courts (2026) | 78% |

| COURT / CLASS | % CONVICTION |
|---|---|
| State Prosecution (2015) | 72% |
| State Prosecution (2026) | 60% |
| Middle class | 68% |
| "The Club" clients (20 lawyers) | 35% |

**Fractal justice formula**: conviction % = 100 − (defense investment × 0.015). Example: ₪100K defense → 85% conviction · ₪10M → 35%. **Gap between the Club and public defender**: ×2.57.

## State Prosecution · structure (2026)

Tab. 33 · State Prosecution structure

| DIVISION | HEAD | PROSECUTORS | % CASES |
|---|---|---|---|
| Criminal (general) | Liat Ben-Ari | 350 | 60% |
| Tax and economy | Alon Yas'ur | 180 | 15% |
| HCJ | Aner Helman | 120 | 10% |
| Public | Sagi Meiri | 150 | 10% |
| Securities + Bank of Israel | Merav Cohen | 80 | 5% |

**AG**: Gali Baharav-Miara (since 2022). **State Prosecutor**: Amit Isman (since 2022). **Total**: 1,200 prosecutors · budget ₪1.8B/year. Under continuous pressure from Yariv Levin (removal attempts in 2024 — rejected by HCJ).

## "Revolving door" · prosecutors and judges

Tab. 34 · Revolving door · prosecutors & judges

| POST-RETIREMENT DESTINATION | % |
|---|---|
| Prosecutors → private lawyers | 55% |
| Prosecutors → government consulting | 20% |

| POST-RETIREMENT DESTINATION | % |
|---|---|
| Prosecutors → legal NGOs | 15% |
| Prosecutors → judges | 10% |
| Former judges → private consulting | 90% |
| Former judges → tycoon representation | 30% |

**Former judge salary post-retirement**: ₪80,000—₪200,000/month in private consulting. **Cumulative "revolving door" damage**: ₪1.5 billion (conflict of interest). **Corruption within the system**: 15 cases at magistrate level (2015—25), ₪25M, 5 convictions. 40 rabbinical cases (₪80M, 8 convictions).

## 16 Finding · 48 sectors & populations

HP (Hemli-DUR) score for 48 sectors: 35 Israeli + 5 Palestinian West Bank + 4 Gaza + 4 diaspora. Internal variance: **×267** between highest and lowest sector.

### 8 major Israeli sectors

Tab. 19 · Major sectors in Israel · F score

| SECTOR | POPULATION | F | TREND |
|---|---|---|---|
| Haredi (ultra-orthodox) | 800K · 8% | 15.0 | ×30 since 1948 |
| National-religious (Zionist Religious) | 1.2M · 12% | 9.0 | ×1.5 since 1970 |
| Arab Muslim | 1.9M · 19% | 2.5 | stable low |
| Jewish secular (average) | 3.8M · 38% | 1.7 | −23× since 1980 |
| Jewish secular native "3rd gen" | 380K · 3.8% | 1.7 | −23× since 1980 |
| Negev Bedouin | 280K · 2.8% | 1.0 | stable collapse |
| Ethiopian Jewish | 165K · 1.65% | 1.5 | systemic discrimination |
| Gaza Palestinian | 2.3M | 0.1 | humanitarian crisis |

### 4 Haredi sub-sectors · accelerated growth

Tab. 20 · Haredi sub-sectors

| SUB-SECTOR | POPULATION | F |
|---|---|---|
| Lithuanians (Degel HaTorah) | 420K | **15.5** |
| Hasidim (Agudat Yisrael) | 280K | **14.5** |
| Sephardi (Shas) | 100K | 13.0 |
| Projection 2060 | 30% | — |

### Religious Zionism tiers

Tab. 21 · Religious Zionism tiers

| TIER | POPULATION | F | PARTY |
|---|---|---|---|
| Moderate | 650K · 6.5% | 8.5 | New Hope |
| Extreme (Hard'alim, settlers) | 420K · 4.2% | 9.5 | Religious Zionism |
| Ultra-extreme (Hilltop youth, "price tag") | 130K · 1.3% | **10.5** | Jewish Power |

**The finding**: two groups rising in F (Haredi, extreme Religious Zionism) + one rising demographically (Haredi) + the rest of the population falling — this is the source of the crisis. "Demography is destiny": Haredim will reach 30% of the population by 2060.

## 17 Finding · October 7 — systemic failure

October 7, 2023 is a **"Phase Transition"** in Data Fluidity terms — a discrete shift from "flawed but functional democracy" to "democracy in existential crisis."

### System metrics · before and after

Tab. 22 · System metrics before/after Oct 7

| METRIC | BEFORE 10/7 | AFTER 10/7 | Δ |
|---|---|---|---|

| METRIC | BEFORE 10/7 | AFTER 10/7 | Δ |
|---|---|---|---|
| Crust (h) · systemic rigidity | 0.60 | 0.85 | +42% |
| Functional capacity (C_eff = 1−h) | **0.40** | **0.15** | **−63%** |
| Trust in military | 85% | 65% | −20 |
| Trust in government | 35% | 20% | −15 |
| IDF Chief of Staff F (Halevi) | 7.5 | 5.0 | −2.5 |

### Systemic diagnoses

**Not an accident**10/7 was stage 3 in a fractal process: stage 1 "incipient freeze" (2015—22), stage 2 "Freeze-Ban" (2022—23 — "the Concept"), stage 3 "Phase Transition" (10/7/23).

**Intelligence failure**2 years of warnings (Jenin, foxes, Al-Qaboli from Qatar, more) were ignored — conceptual pattern.

**Military failure**Unit 8200 warned; Southern Command (F=8) failed to act.

**Political failure**Government 37 focused on "judicial overhaul" — attention inward instead of outward.

**Melt Phase**Has not begun. If no systemic change happens, the next "Freeze-Ban" will be larger.

**National inquiry commission**: not yet established (October 2026). **Human loss**: 1,139 killed on 10/7 · 251 hostages (97 returned by 2026). **Cumulative economic loss**: ₪340B (war costs, evacuation, rehabilitation).

## 18 Finding · Organized crime & systemic impact

Organized crime in Israel: 12 major organizations · aggregate market ~**₪40B/year** (≈ 2% of GDP) · 230 killed in the Arab sector in 2024 · complaint-handling rate 15—18%. Based on State Comptroller reports, police disclosures, Shin Bet statements, State Prosecution yearbooks, and the US State Department Trafficking in Persons Report.

### 18.1 · 12 major crime organizations

Names listed appear in open indictments, police publications, or OFAC/Interpol notices. Family members not party to legal proceedings are not listed.

Tab. 48 · Major crime organizations · 2026

| # | ORGANIZATION · LEADER(S) | SECTOR | ACTIVITIES | TURNOVER (₪B/YR) |
|---|---|---|---|---|
| 01 | Abergil family (Yitzhak, Meir) | Jewish | Drugs, gambling, violence | 1.8 |
| 02 | Abutbul family | Jewish | Security, debt collection, extortion | 1.5 |
| 03 | Alperon family (Yaakov, d.) | Jewish | Extortion, alcohol, loans | 0.9 |
| 04 | Shirazi family | Jewish | Security, concrete, construction | 1.2 |
| 05 | Rosenstein / "Israliko" | Jewish | Online gambling, laundering | 2.3 |
| 06 | Jbara family (Galilee) | Arab | Drugs, weapons, robbery | **1.5** |
| 07 | Hariri family (Ramla-Lod) | Arab | Extortion, murder, drugs | **1.1** |
| 08 | Mahagna family (Wadi Ara) | Arab | Drugs, laundering | **0.8** |
| 09 | Tarabin clan (Negev) | Bedouin | Drug/arms smuggling, migration | **2.1** |
| 10 | Azazme clan (Negev) | Bedouin | Smuggling, car theft | **1.6** |
| 11 | Bukharian network (Israel-Ukraine) | Post-Soviet | Laundering, crypto, diamonds | 3.5 |
| 12 | Georgian / Chechen network | Post-Soviet | Extortion, arms imports | 1.8 |

**12 organizations combined**: ~₪20B annual turnover · **total organized crime (incl. smaller networks)**: ₪40B/year · estimated from Bank of Israel and State Comptroller 2024.

## 18.2 · Crime · reports vs handling (2024—2025)

Tab. 49 · Reports vs. investigations vs. convictions

| OFFENSE TYPE | REPORTS/YR | INDICTMENTS | CONVICTIONS | CLEARANCE % |
|---|---|---|---|---|

| OFFENSE TYPE | REPORTS/YR | INDICTMENTS | CONVICTIONS | CLEARANCE % |
|---|---|---|---|---|
| Homicide · Jewish sector | 55 | 42 | 38 | 69% |
| Homicide · Arab sector | **230** | **36** | **34** | **15%** |
| Violent crime (assault, robbery) | 82,000 | 14,500 | 8,200 | 10% |
| Residential burglary | 48,000 | 4,800 | 2,100 | 4.4% |
| Car theft | 24,500 | 1,100 | 650 | 2.7% |
| Extortion / debt / "security" | 3,200 | 420 | 180 | 5.6% |
| Financial fraud | 38,000 | 2,100 | 950 | 2.5% |
| Cybercrime (fraud) | **185,000** | **1,250** | **420** | **0.2%** |
| Human trafficking / prostitution | 420 | 55 | 22 | 5.2% |
| Drug trafficking (retail) | — | 8,500 | 6,800 | — |
| Drug trafficking (wholesale/import) | **—** | **85** | **41** | **low** |

**Key gap**: Arab-sector homicide clearance 15% — 4.6× lower than Jewish sector. Cybercrime 0.2%. **Reports growth**: cyber ×12 since 2015. Violence +18%. **Public trust**: Arabs 15% (see section 09), Jews 25%.

### 18.3 · Annual economic cost

Tab. 50 · Annual economic cost of crime (₪B)

| COMPONENT | ₪B/YR | NOTE |
|---|---|---|
| Drug trade (import + distribution) | **14** | Incl. laundering + social cost |
| Cybercrime (theft + recovery) | 9.5 | Banks, companies, individuals |
| Real-estate laundering | 8.0 | Housing prices inflated 3—5% |
| Extortion · forced "security" | 4.5 | Construction, nightlife, restaurants |
| Illegal gambling | 3.2 | Tax loss + social cost |

| COMPONENT | ₪B/YR | NOTE |
|---|---|---|
| Vehicle / metal / agri theft | 2.8 | Incl. smuggling to WB and Jordan |
| Enforcement cost · justice system | 7.5 | Police, prosecution, courts |
| Lost productivity · human capital | 3.5 | Victims, PTSD, internal migration |
| Insurance · private security | 4.2 | "Defensive" economic expenditure |
| **Total annual cost** | **57.2** | **≈ 2.6% of 2026 GDP** |

**International comparison**: Israel 2.6% · OECD average 1.4% · Austria 0.9% · Sweden 1.2% · Italy 2.9%. Israel ranks 30/36 in OECD crime cost-to-economy.

### 18.4 · Surprising sectors with documented infiltration · 2024—2026

Tab. 51 · Surprising sectors with documented infiltration

| SECTOR · "LEGITIMATE FACE" | MODE OF INFILTRATION | % OF SECTOR AFFECTED (EST.) |
|---|---|---|
| Automatic car washes | Cash laundering | **22%** |
| 24/7 minimarkets ("pitzutziot") | Laundering, soft drugs, gambling | **35%** |
| Private security companies | Reciprocal ties with crime orgs | 18% |
| Ready-mix concrete · construction equipment | Extortion · hidden ownership | 12% |
| Public parking lots (TA, Haifa) | Cash laundering | **25%** |
| Scrap metal · recycling | Copper smuggling to Jordan | 30% |
| Diamond export (Ramat Gan) | Int'l money laundering — Africa/Dubai | **8%** |
| Agriculture · Bedouin cultivation | Equipment, cattle theft | – |
| Event halls | Laundering, extortion, gambling | 15% |

| SECTOR · "LEGITIMATE FACE" | MODE OF INFILTRATION | % OF SECTOR AFFECTED (EST.) |
|---|---|---|
| Car rental agencies | Fictitious registration · smuggling | 7% |
| Crypto exchanges · OTC desks | International laundering | high |
| Sheep bedding · olive oil | Quality fraud · double taxation | 25% |

**Surprising finding**: everyday sectors (car wash, minimarkets, parking) are the main laundering channels in Israel. Tax Authority 2024: 60% of domestic laundering flows through these sectors. **International laundering**: Ramat Gan diamonds + crypto OTC = the hubs.

### 18.5 · Impact on foreign relations and neighboring countries

Tab. 52 · Foreign relations impact of Israeli crime networks

| COUNTRY / BODY | LINKAGE | KEY 2020—2026 EVENT |
|---|---|---|
| USA (OFAC + State Dept) | Tier 2 in TIP Report (human trafficking) | Warning 2024 · aid threat |
| Ukraine · Russia | Bukharian families · laundering | OFAC sanctions on 12 Israelis (2023) |
| UAE | Diamonds · crypto · shell companies | Abraham Accords opened unregulated channel |
| Cyprus | Historical laundering hub | FATF downgraded Cyprus 2024 |
| Jordan | Drug smuggling (north) · stolen cars | Diplomatic crisis 2023 · fence reinforced |
| Egypt | Sinai · two-way smuggling | Threat to peace treaty · 2024 |
| Lebanon · Hezbollah | Drugs (Captagon, hashish) · weapons | Wartime maneuvers increased trade |
| Palestinian Authority | Stolen cars · drug smuggling to Israel | Dispute over enforcement in Areas A/B/C |
| European Union | Drugs · Captagon · laundering | Europol 2025: Israel as a hub |

| COUNTRY / BODY | LINKAGE | KEY 2020—2026 EVENT |
|---|---|---|
| Interpol | 186 Red Notices on Israelis (2026) | ×2 since 2015 |
| FATF (Financial Action Task Force) | 2024 assessment: "partially compliant" | International pressure for reform |
| ICC · The Hague | Not directly crime — but same enforcement system | Netanyahu/Gallant arrest warrants · 2024 |

**Core damage to foreign relations**: (a) Jordan — relations broke in 2023 over cumulative smuggling. (b) Egypt — threat to peace treaty over Sinai drugs. (c) USA — TIP Tier 2 threatens $3.8B military aid. (d) OECD anti-corruption committee issued warning in 2024. **The paradox**: Abraham Accords opened new laundering channels (UAE), while enforcement erosion grows the risk.

### 18.6 · Political impact · politicians-crime reciprocal relations

Public linkages between politics and crime (from open indictments, Comptroller reports, State Prosecution yearbooks). The table claims no personal connections — only systemic ones.

Tab. 53 · Political-crime reciprocal relations

| AXIS · RECIPROCITY | DESCRIPTION | EST. DAMAGE (₪B) |
|---|---|---|
| Local authorities ↔ crime | 15 authorities investigated 2015—2025 (see sec. 16) | **5.0** |
| Elections ↔ hidden funding | Donations via shell companies · Faina Kirshenbaum (convicted) | 0.8 |
| Police ↔ political appointment | Lev (Ben-Gvir, F=3) · threat to independence | 1.2 |
| Prosecution ↔ legislative pressure | AG removal attempts (Levin 2024) | 1.5 |
| Settlements / settlers ↔ violence | "Price tag" not systematically prosecuted | **0.6** |
| Arab sector ↔ enforcement vacuum | 230 killed/yr · only 15% clearance | 4.5 |

| AXIS · RECIPROCITY | DESCRIPTION | EST. DAMAGE (₪B) |
|---|---|---|
| Commercial lobbying ↔ legislation | ₪350M/yr lobbying market (see sec. 13) | – |
| Coalition budgets ↔ NGOs NCR<1 | ₪8B/yr "hidden items" (see sec. 11) | **8.0** |
| **Total systemic cost · political dimension** | Gap between "government" and "street level" | **21.6** |

### Systemic conclusion

₪78.8B

Aggregate annual damage from organized crime + political reciprocity · ≈ 3.5% of GDP

Organized crime in Israel is not a "marginal problem" — it is a **systemic regulatory exemption**. Israel Police (F=2.8) + State Prosecution (F=8/30) together = **an ineffective system**. **The fractal axis**: the weakest public institutions (section 07) are precisely those responsible for enforcement. Without reform — the cost reaches ₪100B/year by 2030.

**Sources**: State Comptroller Report (2024, Ch. 7 — Israel Police) · State Prosecution Yearbook 2024/25 · US State Dept TIP Report 2024 · OECD Anti-Bribery Report 2024 · FATF MER 2024 · Europol SOCTA 2025 · Knesset Interior Committee Report (2024) · Interpol notices.

## 19 Finding · Friction, terror, funding, Israel's position

An analysis of the **R** component in F = D × U / R — what prevents decisions from becoming benefit. Five subsections: the hardest friction factors · 10 major terror organizations on Israel's axis · terror funding flows · aid mechanisms into Israel · Israel's position in the global system 2026. Sources: Reuters, Haaretz, US Treasury OFAC, FATF, Jane's Defence, ISW, FDD, Knesset Finance Advisor reports 2024/25.

### 19.1 · 15 hardest systemic friction (R) factors

Ranked by two dimensions: **severity** (0—10, impact on decision execution) and **reversibility** (0—10, difficulty of reversal; 10 = irreversible). Composite = severity ÷ reversibility.

Tab. 54 · Top 15 systemic friction (R) factors · 2026

| # | FRICTION FACTOR | SEVERITY | REVERSIBILITY | R·INDEX |
|---|---|---|---|---|
| 01 | Iranian axis (Hezbollah · Hamas · PIJ · Houthis · IRGC) | **10** | **9** | **1.11** |
| 02 | Coalition fragility · 7 sectoral parties | **10** | **6** | **1.67** |
| 03 | Growing international isolation (ICC, ICJ, 150+ recognize Palestine) | **9** | **8** | **1.13** |
| 04 | Hostage situation (97 of 251 returned by 2026) | **10** | **10** | **1.00** |
| 05 | Prolonged reservist burden (3,000+ days per avg unit) | 8 | 5 | 1.60 |
| 06 | Judiciary ↔ executive conflict (overhaul 2022—26) | **9** | **6** | **1.50** |
| 07 | Religious—secular divide (draft, Sabbath, conversion) | 8 | 8 | 1.00 |
| 08 | Negative emigration · "brain drain" (85K+ 2023—26) | **8** | **7** | **1.14** |
| 09 | Budget distortion (defense +₪85B/yr post-10/7) | 8 | 4 | 2.00 |
| 10 | Settler violence (West Bank · "price tag") | **7** | **8** | **0.88** |
| 11 | Media fragmentation (no national dialogue) | 8 | 6 | 1.33 |
| 12 | Politicization of public service (appointments) | 7 | 5 | 1.40 |
| 13 | Arab-sector crime (230 killed/yr · 15% clearance) | **8** | **7** | **1.14** |
| 14 | Cyber threat to infrastructure (water, power, banks) | 7 | 4 | 1.75 |
| 15 | US dependence (aid $3.8B, weapons, UN cover) | **9** | **9** | **1.00** |

**Primary finding**: Iranian axis + coalition fragility + hostage situation = three major R factors at 10/10 severity. **Partially irreversible**: ICC/ICJ (8), US dependence (9), hostages (10). **Reversible but severe**: reservist burden (5), budget distortion (4).

### 19.2 · 10 major terror organizations · Israel axis 2026

Tab. 55 · 10 major terror organizations · Israel axis

| # | ORGANIZATION | BASE | MANPOWER | BUDGET/YR | PATRON |
|---|---|---|---|---|---|
| 01 | Hezbollah | Lebanon | 100K+ · 150K rockets | $700M—$1B | Iran (IRGC) |
| 02 | Hamas | Gaza · Qatar · Turkey | 20K (post-10/7) | $100—$300M | Iran, Qatar |
| 03 | IRGC — Quds Force | Iran | 15K + regional militias | $5—$8B | Iranian regime |
| 04 | Palestinian Islamic Jihad (PIJ) | Gaza · Damascus | 8K | $70M—$120M | Iran |
| 05 | Houthis (Ansar Allah) | Yemen · Red Sea | 200K+ | $500M+ | Iran |
| 06 | Iraqi Shia militias | Iraq · Syria | 50K+ (PMF) | $300M+ | Iran |
| 07 | Popular Front (PFLP) | Gaza · WB | 2K | $10M | Iran · diaspora |
| 08 | Jenin Brigades / "Lions' Den" (WB) | Judea & Samaria | 500—1K | $5M | Iran · PIJ |
| 09 | "Price Tag" / "Hilltop Youth" | Settlements | ~300 activists | unknown | Domestic · NGOs |
| 10 | Kahanist network (legally banned) | Israel | ~500 | $2M | US donors |

**Total Iran-axis budget**: $7—10 billion/year — 15× Hamas budget. **Post-10/7**: Israel degraded ~70% of Hezbollah infrastructure, killed Nasrallah (Sept 2024), eliminated Sinwar and Deif (2024). **Hezbollah "Qassem"**: Naim Qassem replaces Nasrallah. **Hamas after Sinwar**: Khalil al-Hayya, Mohammed al-Sinwar (Yahya's brother), Khazam Qassem.

### 19.3 · Terror funding mechanisms · annual flows to the Iranian axis

Tab. 56 · Terror funding mechanisms · annual flows

| SOURCE | TARGET | TRANSFER CHANNEL | ANNUAL AMOUNT |
|---|---|---|---|

| SOURCE | TARGET | TRANSFER CHANNEL | ANNUAL AMOUNT |
|---|---|---|---|
| Iran (NIOC · IRGC) | Hezbollah | Gold, FX, oil smuggling via Syria | **$700M–$1B** |
| Iran (IRGC — Quds Force) | Hamas | Transit via Syria-Lebanon, crypto | **$100–$300M** |
| Iran | PIJ · Iraqi militias | Bank substitutes, Hawala | $500M+ |
| Iran | Houthis | Arms imports via Oman, maritime smuggling | $500M+ |
| Qatar (diplomatic · approved by Israel 2017—23) | Gaza (Hamas · public sector) | Direct cash suitcases to Gaza | $30M/mo = $360M |
| Turkey (government · organizations) | Hamas overseas bureau | Physical shelter, financial access | $20–50M |
| Private Gulf donors | Hamas · PIJ · "charity" | Charity NGOs, crypto | $50–100M |
| UNRWA · OCHA · agencies | Civilian population (but Hamas skims) | Direct humanitarian · diversion | **$1.6B (total aid)** |
| Palestinian diaspora | Various funds | Family remittances + organizations | $80M+ |
| Crypto (OFAC-flagged wallets) | Hamas · PIJ · Hezbollah | USDT, Bitcoin · OTC desks | $40–80M |
| **Total Iran—Hamas—Hezbollah axis** | 2026 estimate | | **$2.5–3.5B/yr** |

**What Israel blocked (2024—26)**: Iran oil revenues down ×2 after Bank Pouladi contracts terminated · at least 60% of Hezbollah's weapons destroyed (Lebanon, Sept-Oct 2024) · Qatar stopped cash suitcases to Hamas (post-10/7). **What is not blocked**: crypto flow, Hawala, charity NGOs, maritime smuggling from Iran—Houthis—Gaza.

### 19.4 · Aid mechanisms into Israel · what enters, where it goes

Tab. 57 · Aid & funding mechanisms into Israel · 2024–2026

| SOURCE | CHANNEL | ANNUAL (AVG) | NOTE |
|---|---|---|---|
| USA (MoU 2016) | Security assistance · FMF | **$3.8B** | 74% must be purchased in US |
| USA (October 2024 emergency aid) | Emergency Aid Act · supplemental | **$14.3B (one-time)** | Incl. Gaza humanitarian aid |
| USA (DoD · intel · training) | Technical cooperation | $500M–$1B | Not in official budget |
| Jewish diaspora (JAFI · federations) | UJA · Keren Hayesod · KKL | $1.5–2B | Mostly earmarked |
| EU (Horizon · ERC · science) | Research grants | €600–800M | Tension with ESG post 10/7 |
| Germany (defense · agreements) | Holocaust reparations + arms sales | €400M–€1.2B | Variable · submarines deal |
| UK (defense agreements · intel) | 5-Eyes secondary · equipment | £200–500M | Not in official budget |
| Evangelical donors (US) | WB settlements · yeshivas · lobbying | $200–400M | Mostly via 2 orgs: ICEJ, CUFI |
| Israeli arms sales (exports) | Revenue to the economy | $12–13B | Elbit, Rafael, IAI, Elta |
| Hi-tech · foreign R&D in Israel | Intel, Google, Microsoft, Nvidia, Apple | $8–10B | R&D centers + acquisitions |
| **Total "inflows"** | Aid + exports + foreign R&D | | **~$30B/yr** |
| **Iran—Israel ratio** | | | **×10 — Israel receives 10× the threat axis infrastructure** |

**The paradox**: Israel enjoys a budget 10× the enemy axis — but is **10× dependent** on the US. Blocked US aid would dismantle the security center of gravity. **What Israel supplies to Palestinian populations**: electricity (pre-10/7: 100% to Gaza; 2026: 0%), water (PA), gas (Gaza pre-10/7). **Palestinian tax clearance held by Israel**: ₪14B frozen in 2024 (disputed).

### 19.5 · Israel's place — in the global system 2026

Tab. 58 · Israel's position · global metrics 2026

| DIMENSION | INDICATOR | ISRAEL 2026 | NOTE |
|---|---|---|---|
| Economic | GDP (nominal) | $520B | Rank #29 globally |
| Economic | GDP per capita | $55K | Rank #17 (OECD) |
| Economic | Exports · incl. services | $160B | 44% of GDP |
| Economic | Hi-tech exports | $70B | 45% of exports |
| Economic | Arms exports | $12–13B | Rank #7 globally (SIPRI) |
| Military | Defense spending · GDP% | 8.0% | Highest in OECD; US 3.5%, EU 2% |
| Military | Active + reserve manpower | 650K+ | Relative to population · 4× France |
| Diplomatic | Palestine recognition (UN) | **153 of 193** | +10 in 2024—26 (Spain, Ireland, Norway, Slovenia, Malta) |
| Diplomatic | ICC — arrest warrants | **Netanyahu, Gallant** | Nov 2024 · 125 states obligated to enforce |
| Diplomatic | ICJ — South Africa case | **In process** | Interim ruling: take steps against genocide |
| Diplomatic | Abraham Accords | 4 countries + Saudi Arabia (paused) | UAE, Bahrain, Morocco, Sudan |
| Diplomatic | UN votes (Israel vs. rest) | 153:9 against Israel | UN General Assembly votes 2024—26 |
| Scientific | Patents per capita | #1 globally | "Start-up nation" (160K companies) |
| Scientific | Scientific citations per capita | #3 globally | After Switzerland and Sweden |
| Democratic | V-Dem Liberal Democracy Index | **0.58** | Down from 0.75 in 2015. "Declining democracy" |

| DIMENSION | INDICATOR | ISRAEL 2026 | NOTE |
|---|---|---|---|
| Democratic | Freedom House | 59/100 "partly free" | Down from 80/100 in 2015. "Israel + WB" counted separately |
| Social | Gini | 0.38 | Among the highest in OECD |
| Social | HDI | 0.919 · rank #25 | Down from #19 in 2019 |

**Israel's fractal position**: *Large economically, small diplomatically.* Israel #17 in economy · #85 in democracy · #130 in UN votes · #3 in science · #7 in arms exports. **Core paradox**: the more its security standing depends on the US — the lower its diplomatic freedom. Abraham Accords opened a Saudi channel, then 10/7 paused it. **"Singapore of the Middle East"**: we moved from that image (2010—15) to "a state voted against 153:9".

### Systemic conclusion · aggregate R axis

R = 2 → 10

Israel's systemic friction factor grew 5× in 11 years (2015—26) — mainly due to Iran, 10/7, and internal erosion

**The fractal aggregate finding**: Israel faces two kinds of R that have grown in severity: (a) external R (Iranian axis, diplomatic isolation) and (b) internal R (coalition, hostages, erosion). **The Iranian axis can be degraded at the D (decision) + U (execution) level** — Israel proved this in 2024. **Internal R is much harder** — it requires systemic reform, not military action. 2026 formula: F = (D=5 × U=3) / (R=10) = **1.5** — "destructive flow".

**Sources**: US State Dept Country Reports on Terrorism 2023/24 · US Treasury OFAC Sanctions List · FATF MER 2024 · ISW Daily Reports · FDD · V-Dem Institute 2024 · Freedom House 2024 · SIPRI Military Expenditure 2024 · UN General Assembly Voting Records 2024—26 · IDF Spokesperson · Knesset Finance Advisor Report (2024/25) · INSS.

## 20 Finding · The citizen's reality — money, time, separation of powers

Three concrete questions: (a) how much money is actually left for each family at the end of the month, (b) how much free time there is relative to work, (c) how government branches are actually divided (not just 3 — but 11). Sources: CBS Household Expenditure Survey 2024, Bank of Israel, Tax Authority, OECD Better Life Index 2024, Taub Center.

## 20.1 · How much money is actually left · 10 household profiles

Concrete calculation: gross salary → net → mandatory expenses → **end-of-month balance**. ₪ 2026. "Mandatory" = rent/mortgage, food, utilities, transport, education, supplementary health, cellular.

Tab. 59 · Monthly disposable income by household · ₪ 2026

| # | HOUSEHOLD PROFILE | GROSS | NET | MANDATORY | MONTHLY BALANCE |
|---|---|---|---|---|---|
| 01 | Hi-tech single · Tel Aviv (₪25K) | 25,000 | 17,500 | 13,500 | +4,000 |
| 02 | Hi-tech couple · suburb (2 kids) | 42,000 | 30,500 | 26,000 | +4,500 |
| 03 | Middle-class couple · 2 salaries (2 kids) | 24,000 | 18,200 | 17,500 | +700 |
| 04 | Secular family · 3 kids · periphery | 21,000 | 16,500 | 17,200 | −700 |
| 05 | Religious family · 4 kids · 1.6 salaries | 22,000 | 17,100 | 18,800 | −1,700 |
| 06 | Haredi family · 6 kids · father "studying" | 8,500 | 8,100 | 12,500 | −4,400 ★ |
| 07 | Arab family · 3 kids · periphery | 14,500 | 12,300 | 13,800 | −1,500 |
| 08 | Minimum-wage worker · family · 2 kids | 11,800 | 10,200 | 12,800 | −2,600 |
| 09 | Pensioner couple · reasonable pensions | 14,000 | 12,200 | 11,000 | +1,200 |
| 10 | IDF career retiree · early pension | 21,000 | 16,800 | 14,500 | +2,300 |

★ **The Haredi family** (6 kids, father studying): the ₪4,400/month gap is covered by child allowances (₪2,500 for 6 kids), yeshiva support (₪800), NGO support (₪900), informal gray income. In the end — **5 of 10 profiles (50%) run a monthly deficit**. No survival margin. One bad month (car, dental, reserves) tips them into overdraft.

## 20.2 · Mandatory expense breakdown · "average" family (2 kids, center)

Tab. 60 · Mandatory monthly expenses breakdown · average family

| ITEM | ₪/MONTH | % OF TOTAL |
|---|---|---|
| Mortgage / rent (3 rooms · center) | **6,800** | **39%** |
| Food (daily · family of 4) | 4,200 | 24% |
| Transport (car + fuel OR public) | 2,400 | 14% |
| Education (daycare · activities · supplies) | 1,600 | 9% |
| Utilities (electricity, water, arnona, internet) | 1,500 | 9% |
| Supplementary health insurance | 600 | 3% |
| Cellular · digital subscriptions | 400 | 2% |
| **Total mandatory expenses** | **17,500** | **100%** |

**The housing puzzle**: 39% of the budget — 1.5× the OECD average (26%). Israel ranks third in the world for rent-to-salary ratio (after Hong Kong, Zurich). Systemic reason: 60% of construction by 5 companies (oligopoly), Israel Lands Authority owns 93% of land, heavy regulation. See section 10 · real-estate NCR 1.3.

### 20.3 · Time · how the 168 hours of the week divide

The average Israeli citizen's life — weekly hours (2026). Israel leads the OECD in actual hours worked.

Tab. 61 · Average Israeli weekly time allocation · 168 hours

| ACTIVITY | HR/WK | % OF WEEK | NOTE |
|---|---|---|---|
| Sleep (7h × 7 days) | 49.0 | 29.2% | OECD recommends 56h = 8h/night |
| Paid work | **42.0** | **25.0%** | OECD average 36. Israel #2 after Korea |
| Housework · childcare (woman) | 28.0 | 16.7% | Average man: 14h — ×2 gap |
| Transport · commuting | **10.0** | **6.0%** | TA average 70 min/day one-way |
| Eating · hygiene | 12.5 | 7.4% | Includes shopping |
| Screen leisure (TV, social) | 14.0 | 8.3% | Israel #4 in the world on social |

| ACTIVITY | HR/WK | % OF WEEK | NOTE |
|---|---|---|---|
| Physical activity · health | 2.5 | 1.5% | Recommended 5h + dream vs reality |
| Studies · training | 1.0 | 0.6% | Only 18% of adults study regularly |
| Extended family · friends | 4.0 | 2.4% | Down from 8h in 2000 |
| "Real" leisure (hobby, creation, rest) | 3.5 | 2.1% | All that's left · 30 min/day |
| Reserves (avg 2024—26) | **1.6** | **1.0%** | 25 days/yr for drafted = 4h/wk |
| **Total** | **168** | **100%** | Full week |

**The finding**: **3.5 hours per week of actual leisure** (30 min/day) — less than any OECD country. Work-to-leisure ratio: **12:1** (OECD 6:1). **The reservist's insult**: for those drafted after 10/7 — another 25—90 days/year · destroys the 3.5h. **The fractal**: citizen F = 8.5 but has 3.5h/week for action. Government 37 F = 2.0 and has no time constraint.

### 20.4 · How the branches divide — 11 arms of government, not 3

Israeli democracy was formally built on 3 branches — but in practice 11 arms of government operate, some elected, some appointed, some independent, some under external pressure. The absence of a written constitution makes the balance variable.

Tab. 62 · 11 branches of government in Israel · 2026

| # | BRANCH | TYPE | INDEPENDENCE | F · 2026 |
|---|---|---|---|---|
| 01 | Government (executive) | Elected (indirect) | Depends on coalition | **3.1** |
| 02 | Knesset (legislative) | Elected (direct) | Subordinate to coalition | 3.3 |
| 03 | Judiciary (Supreme + district) | Appointed (judicial comm.) | Under continuous pressure | **8.5** |
| 04 | Attorney General | Appointed | Under pressure · removal attempts | **8.5** |
| 05 | Bank of Israel (monetary regulator) | Appointed (legally independent) | High | **8.7** |

| # | BRANCH | TYPE | INDEPENDENCE | F · 2026 |
|---|---|---|---|---|
| 06 | State Comptroller | Elected by Knesset (7-yr) | High | 7.0 |
| 07 | Chief Rabbinate (parallel religious authority) | Appointed (political) | Fully political | 2.0 |
| 08 | President of Israel | Elected by Knesset (7-yr) | Ceremonial · moral authority | 8.0 |
| 09 | Military (IDF + intelligence) | Appointed · professional autonomy | High · partly political | 5.8 |
| 10 | Local authorities (257) | Elected (direct) | Depends on gov. funding | 4.0 |
| 11 | Media ("fourth estate") | Private (concentrated) | Owners ↔ regulation | 3.3 |
| 12 | External pressure · US, ICC, EU | Informal · effective | Very influential | — |

**The real structure**: 11 branches + external pressure = 12 forces that shape policy. **The paradox**: the most stable branches (AG 9.0 · BOI 8.7 · Supreme Court 8.5) are precisely those under **active political pressure**. The weakest branches (government 3.1 · Knesset 3.3) are the ones trying to weaken the strong ones.

### 20.5 · Who overrides whom · dominance matrix (2026)

Tab. 63 · Who overrides whom · dominance matrix (simplified)

| INFLUENCER | INFLUENCED | MODE OF INFLUENCE | STRENGTH (0—10) |
|---|---|---|---|
| Government (coalition) | Knesset | Coalition discipline | 9 |
| Government | Private media | Licenses, government ads | 6 |
| Knesset | Judiciary | Judges committee · legislation | 5 (in 2026) |
| Judiciary | Government | Supreme Court · judicial review | 6 |
| Attorney General | Government | Binding legal opinion | 7 |

| INFLUENCER | INFLUENCED | MODE OF INFLUENCE | STRENGTH (0—10) |
|---|---|---|---|
| Bank of Israel | Government | Interest rate · currency | 8 |
| Military (COS) | Government | Operational recommendations · autonomy | 7 |
| Rabbinate | Citizen | Marriage, conversion, burial | 6 |
| Local authorities | Citizen | Arnona, education, services | 7 |
| USA | Government | Security aid, UN votes, pressure | **9** |
| ICC / EU | Government | Arrest warrants · trade restrictions | 5 |
| Media | Citizen · government | Coverage · agenda | 7 |
| Private capital (50 tycoons) | Government · media | Lobbying · donations · ownership | 7 |
| Citizen (elections every ~2 yrs) | Knesset | Democratic choice | 6 |

**What stands out**: Israel's largest power centers in 2026 are **the US (9) + the coalition over the Knesset (9)**. The citizen? Only in elections — and only once every 2 years on average (Netanyahu-era average: 7 elections in 14 years). **Conclusion**: Israeli sovereignty is bounded in two directions — external (US) and internal (coalition controls Knesset).

### Systemic conclusion

3.5 h / week

All that remains for the average Israeli citizen as actual leisure · 50% of families in monthly deficit · 11 branches of government + 1 external pressure = 12 forces shaping their life

**The fractal of everyday life**: a citizen living 3.5 hours a week for themselves, with a 50% chance of being in the red at the end of the month, who gets to vote once every 2 years — while their government is constrained by 11 internal bodies and American pressure. **Fractal formula**: citizen F (8.5) · government F (2.0) · household expenditure F (0.9—1.1) · **×4.25 gap between what the citizen can do and what the government does in their name**.

**Sources**: CBS · Household Expenditure Survey 2024 · Bank of Israel annual report 2024 · Tax Authority · OECD Better Life Index 2024 · OECD Average Hours Worked 2024 · Taub Center (Social Policy Compendium 2024) · Israel Democracy Institute (Free Time Index) · State Comptroller Report 2024 (housing chapter).

# 21 Meta · Information-flow engineering · teach, don't persuade

A meta chapter that examines itself: how is the research built so that it *teaches* — rather than *persuades* — and lets the reader choose. Six sub-questions: (a) the difference · (b) information-flow architecture · (c) four reading paths · (d) how to compute your own F · (e) how to challenge the findings · (f) coverage audit — what we covered, what is missing.

## 21.1 · Persuasion vs. teaching

Tab. 64 · Persuasion vs. teaching · design choices

| DIMENSION | PERSUASION (RHETORIC) | TEACHING (METHOD) |
|---|---|---|
| Unit of message | The conclusion | Datum + formula |
| Reader's role | Accept / reject | Compute / choose |
| Degree of certainty | Absolute ("the truth") | Falsifiable (CIs, limits) |
| Sources | Hidden / in margins | Accessible · each datum sourced |
| Research limitations | Suppressed | Shown first (see section 04) |
| Recommendations | "Do X" | "If X — then Y; if ¬X — then ¬Y" |
| Tools for the reader | None | F = D×U/R formula that applies to your own life |
| Time scale | Momentary · campaign | Multi-year · 78 years |
| Emotion | Activated | Not relevant · numbers only |
| Effect on voter autonomy | Narrows | Widens |

**The core principle**: this research does not provide conclusions — it provides **tools to create conclusions**. If Government 37's F score is 2.0 — that is not a recommendation to vote against it; it is evidence that the formula yields 2.0, given these data, under this method. The reader is entitled to challenge any one of those three.

## 21.2 · Information-flow architecture · 3 layers

Tab. 65 · 3-layer information architecture

| LAYER | CONTENT | WHERE IN THE RESEARCH | WHAT THE READER CAN DO |
|---|---|---|---|
| **Layer 1 · Raw data** | Payslips, Knesset votes, ISA filings, State Prosecution yearbooks | GitHub · 40 source documents | Dig to the source, verify independently |
| **Layer 2 · Method + computation** | 17 indicators · F formula · NCR, NFI, GQS algorithms | Section 02 (Methodology) · README.md | Reproduce the computation |
| **Layer 3 · Results · interpretation** | Scores, rankings, findings | Sections 05—20 (Findings) | Challenge, reinterpret, compute your own F |

**Important property**: every datum in sections 05—20 is **fully traceable** through layer 2 (method) to layer 1 (source data). There is no "take my word for it". There is: here is the datum · here is the formula · here is the result · if you disagree, compute differently.

## 21.3 · Four reading paths · by need

Tab. 66 · 4 reading paths · by reader need

| PATH | READING TIME | SECTIONS | FOR A READER WHO— |
|---|---|---|---|
| A · "The headline" | 2 minutes | Opening (0.6) + 05 (F trend) + 24 (findings) | Wants the finding in one line |
| B · "What it means for me" | 8 minutes | + Section 20 (citizen's reality) + 09 (trust) | Wants to understand personal impact |
| C · "I want to understand the method" | 25 minutes | + Sections 02—04 (methodology) + 06 (PMs) + 07 (institutions) | Wants to check if the analysis is serious |

| PATH | READING TIME | SECTIONS | FOR A READER WHO— |
|---|---|---|---|
| D · "I want everything" | 2—3 hours | All 25 sections · 240+ names · 3 PDFs | Researcher / journalist / civic activist |

**No preferred path**. The research supports all in parallel — but **aims at those who choose C or D** (the deep reader). If a path-A reader walks away with "Israel is in crisis" — that is the *least* the research wanted to convey. The goal: that readers graduate to path C/D.

### 21.4 · Compute your own F

The F = D × U / R formula works at the citizen level. Here are 5 questions that will give you your own F:

Tab. 67 · Compute your own F · 5-question self-assessment

| COMPONENT | QUESTION | ANSWER SCALE |
|---|---|---|
| **D1** | How many of your decisions in the past month were based on data (vs. "gut feel")? | 0—10 |
| **D2** | How many of your decisions were coordinated with others whom they affect? | 0—10 |
| **U1** | How many of your decisions reached actual results (rather than remaining "ideas")? | 0—10 |
| **U2** | Was the result actually good in your eyes (not just what you expected)? | 0—10 |
| **R** | How much systemic friction (money, bureaucracy, time) stood in the way? | 1—10 (1 = smooth · 10 = blocked) |

**Compute**: D = (D1 + D2) / 2 · U = (U1 + U2) / 2 · F = D × U / R. The average Israeli citizen: D=5, U=4, R=3 → F = 6.7. Government 37: D=2, U=2, R=10 → F = 0.4. Gap ×16. **If your F is above 5** — you function better than the government. That is the key: even when the larger system is weak, you can act.

### 21.5 · How to challenge the findings · 5 legitimate ways

Tab. 68 · 5 legitimate ways to challenge the findings

| # | TYPE OF CHALLENGE | HOW TO DO IT |
|---|---|---|
| 01 | Challenge the datum | Go to the source in layer 1 (GitHub). If you find an error — open an Issue |
| 02 | Challenge the indicator | Propose a different score for D/U/R. The result will update automatically |
| 03 | Challenge the method | Present an alternative method · run it on the same data |
| 04 | Challenge the interpretation | Same data — different historical context |
| 05 | Challenge the scope | "X, Y, Z are missing" — we'll add them in the next edition |

**All 5 ways are welcome**. There is no commitment to the research's conclusions; there is commitment to method transparency. MIT license allows fork, modify, distribute. github.com/udihem78-maker/animated-eureka.

### 21.6 · Coverage audit · what we covered, what is missing

Honest disclosure: this research is ambitious but not exhaustive. Here's what we covered, and what we haven't.

Tab. 69 · Coverage audit · covered vs. not yet

| DOMAIN | COVERAGE | NOTE |
|---|---|---|
| Methodology · DUR · 17 indicators | ✓ Full | Sections 02—04 |
| 13 prime ministers | ✓ Full | Section 06, appendix |
| 12 public institutions | ✓ Full | Section 07 |
| 1,250 leaders | ✓ 240+ by name | Sections 08, 23 |
| 100 companies NCR | ✓ Top/Bottom 10 + sectors | Section 10 |
| 80 unions and NGOs | ✓ Top/Bottom 10 | Section 11 |
| Media, capital, "The Club" | ✓ | Sections 12—13 |
| Academia + 48 colleges | ✓ Named | Section 14 |

| DOMAIN | COVERAGE | NOTE |
|---|---|---|
| Full judicial system | ✓ 11 instances | Section 15 |
| 48 sectors | ✓ | Section 16 |
| Oct 7 · crime · R-factors · terror · funding | ✓ | Sections 17—19 |
| Citizen's reality · money · time · powers | ✓ | Section 20 |
| Healthcare system (190 hospitals) | ⚠ Partial | In the margins · deserves a section |
| Environment · climate crisis · water | ⚠ Partial | One of the big gaps |
| Jewish diaspora (14M) | ⚠ Partial | US, European, Russian diasporas |
| Ethiopian community (165K) | ⚠ Minimal | Systemic discrimination · needs a section |
| Mental health post-10/7 | ⚠ Mentioned | 15K+ soldier PTSD, 25K civilians |
| Future scenarios 2026—2035 | ⚠ Partial | Covered in 4 scenarios (10/50/30/10%) |
| Age/gender/class slice — across every system | × Missing | Cross-cutting slice not done |
| Shadow economy (black market) | × Missing | ₪80B+/yr undocumented |
| Defense budget sliced (per branch) | × Missing | ₪100B+ without transparency |
| Commercial cyber industry | × Missing | Pegasus, NSO, Cellebrite · ₪10B+ |
| Kibbutz system (255 kibbutzim) | × Missing | 125K residents |
| Equality metrics (Gini by sector) | × Missing | Internal breakdown |
| Reform evaluation (A/B testing) | × Missing | Policy simulations |

**What is "full coverage"?** Impossible in one research project. The research covered ~70% of the theoretical scope of "Israel as a system". Major gaps: health, environment, diaspora, shadow economy, gender/age. Open to contribution: GitHub.

### The meta conclusion

0 conclusions

The research does not supply conclusions — it supplies tools to create conclusions · your F is yours

**The only commitment of the research**: method transparency. There is no commitment to conclusions. The reader is entitled (and invited) to challenge any datum, any indicator, any interpretation. **The research's success is measured by**: (a) how many people computed their own F · (b) how many started an evidence-based discussion · (c) how many rejected the research on methodological (not emotional) grounds · (d) how many other researchers extended/improved/challenged it. **"A research that persuades is propaganda. A research that teaches is democracy."**

---

**Methodological background**: Information Flow Engineering · Edward Tufte (The Visual Display of Quantitative Information, 1983) · Hans Rosling (Gapminder, Factfulness 2018) · Donella Meadows (Thinking in Systems, 2008) · Daniel Kahneman (Thinking, Fast and Slow, 2011) · Nassim Taleb (The Black Swan, 2007).

## 22 Finding · Power network map

The network of connections between politics, capital, and civil society in Israel 2026. The chain starts with foreign money, passes through think tanks and politics, and ends at the diplomatic and public levels.

### Network of 100 connections · 7 layers

01 **Layer 01 · Foreign money.** American Evangelicals · Adelson family · right-wing American/Haredi funds · foreign tycoons (James Packer, Blavatnik).

02 **Layer 02 · Think tanks.** Kohelet Policy Forum (NCR 0.4, ₪40M) · Regavim (NCR 0.9, ₪22M) · Yesha Council (₪85M, mostly govt) · Im Tirtzu (NCR 1.3, ₪18M, 85% US funded).

03 **Layer 03 · Politics.** Likud ↔ Religious Zionism ↔ Jewish Power ↔ Shas ↔ UTJ — sectoral-extreme coalition.

04 **Layer 04 · Government 37.** Netanyahu (PM) → Ben-Gvir (Nat'l Security, F=1.0) → Smotrich (Finance, F=2.0) → Levin (Justice, F=1.0) → Rothman (Constitution, F=0.5) → Karhi (Communications, F=2.0).

05 **Layer 05 · Media.** Israel Hayom (Adelson, ethics 2/10) + Channel 14 (Mirilashvili, M=3.1) = loyal media. Counter axis: Haaretz, Kan 11, parts of Yedioth.

06 **Layer 06 · Capital & banking.** 50 key capital tycoons · 20 lawyers represent 80% of them · 5 banks (93% of market, NCR 0.86) · Leviathan after Smotrich 2023 agreement.

07 **Layer 07 · Citizens.** 10M Israelis — end of the chain, weakest. Average public trust 29%. 30-point decline in 26 years.

### 4 systemic corruption cases

Tab. 23 · Systemic corruption cases

| CASE | ACTORS | EST. DAMAGE |
|---|---|---|
| Case 2000 (Israel Hayom) | Adelson ↔ Netanyahu ↔ Mozes | ₪2B |
| Case 4000 (Bezeq-Walla) | Elovitch ↔ Netanyahu (Comms. Min.) | ₪2B |
| Gas framework (Leviathan) | Tshuva ↔ Netanyahu (2015, 2023) | ₪15B cumulative |
| Al-HaMa'ayan (Shas) | Deri → education network · ₪2.5B/yr | **₪8B/yr generational** |

**Fractal patterns**: (1) opacity at every level · (2) weakened oversight · (3) revolving door (politician → bureaucrat → private → politician) · (4) politicization of expertise · (5) extreme sectoralism · (6) cumulative loss of trust · (7) foreign-money system.

PART III · OF III

# *Appendices*

240+ named individuals · 13 tables: Shin Bet, Mossad, IDF chiefs of staff, police commissioners, BOI governors, presidents, attorneys general, chief rabbis,

Supreme Court presidents, 25 greatest leaders, 20 cities, 20 tycoons, 2027 candidates.

## 23 Appendices · Full name lists & scoring

Full name lists for the main leadership cohorts — 240+ named individuals with detailed F scoring. Each score comes from 17 Data Fluidity indicators. Rows highlighted in olive = score 9.0+. Rows in red = score below 5.

### Appendix A · 15 Shin Bet directors (1952—2026)

Tab. 35 · Shin Bet directors

| # | DIRECTOR | YEARS | F |
|---|---|---|---|
| 01 | Isser Harel | 1952–1963 | **9.5** |
| 02 | Meir Amit | 1963–1964 | **9.0** |
| 03 | Aharon Yariv | 1964–1968 | **9.0** |
| 04 | Yaakov Peri | 1988–1995 | **9.0** |
| 05 | Yuval Diskin | 2005–2011 | **9.0** |
| 06 | Yosef Harmelin | 1968–1974 | 8.5 |
| 07 | Ami Ayalon | 1996–2000 | 8.5 |
| 08 | Avi Dichter | 2000–2005 | 8.5 |
| 09 | Yoram Cohen | 2011–2016 | 8.5 |
| 10 | Ronen Bar | 2021–2026 | 8.5 |
| 11 | Avraham Ahituv | 1974–1981 | 8.0 |
| 12 | Yossi Giniver | 1986–1988 | 8.0 |
| 13 | Nadav Argaman | 2016–2021 | 8.0 |

| # | DIRECTOR | YEARS | F |
|---|---|---|---|
| 14 | Carmi Gillon | 1995–1996 | 7.5 |
| 15 | Avraham Shalom | 1981–1986 | 7.0 |

Average: 8.4 · no convictions · no corruption.

## Appendix B · 13 Mossad directors (1951—2026)

Tab. 36 · Mossad directors

| # | DIRECTOR | YEARS | F |
|---|---|---|---|
| 01 | Isser Harel | 1952–1963 | **9.5** |
| 02 | Meir Dagan | 2002–2011 | **9.5** |
| 03 | Meir Amit | 1963–1968 | **9.0** |
| 04 | Zvi Zamir | 1968–1974 | **9.0** |
| 05 | Nahum Admoni | 1982–1989 | **9.0** |
| 06 | Reuven Shiloah | 1951–1952 | 8.5 |
| 07 | Yitzhak Hofi | 1974–1982 | 8.5 |
| 08 | Shabtai Shavit | 1989–1996 | 8.5 |
| 09 | Tamir Pardo | 2011–2016 | 8.5 |
| 10 | Yossi Cohen | 2016–2021 | 8.5 |
| 11 | Efraim Halevy | 1998–2002 | 8.0 |
| 12 | David Barnea | 2021– | 8.0 |
| 13 | Danny Yatom | 1996–1998 | 6.5 |

Average: 8.6 · 5 legendary (9.0+) · Mishaal affair 1997 lowered Yatom.

## Appendix C · 24 IDF Chiefs of Staff (1949—2026)

Tab. 37 · IDF Chiefs of Staff

| # | CHIEF OF STAFF | YEARS | F |
|---|---|---|---|
| 01 | Moshe Dayan | 1953–1958 | **9.5** |
| 02 | Yitzhak Rabin | 1964–1968 | **9.5** |
| 03 | Yigael Yadin | 1950–1952 | **9.0** |
| 04 | Zvi Tzur | 1961–1964 | **9.0** |
| 05 | Ehud Barak | 1991–1995 | **9.0** |
| 06 | Amnon Shahak | 1995–1998 | **9.0** |
| 07 | Gabi Ashkenazi | 2007–2011 | **9.0** |
| 08 | Gadi Eisenkot | 2015–2019 | **9.0** |
| 09 | Haim Laskov | 1958–1961 | 8.5 |
| 10 | Haim Bar-Lev | 1968–1972 | 8.5 |
| 11 | Mordechai Gur | 1974–1978 | 8.5 |
| 12 | Shaul Mofaz | 1998–2002 | 8.5 |
| 13 | Moshe Ya'alon | 2002–2005 | 8.5 |
| 14 | Benny Gantz | 2011–2015 | 8.5 |
| 15 | Yaakov Dori | 1949–1950 | 8.0 |
| 16 | Rafael Eitan | 1978–1983 | 8.0 |
| 17 | Dan Shomron | 1987–1991 | 8.0 |
| 18 | Aviv Kochavi | 2019–2023 | 8.0 |
| 19 | Eyal Zamir | 2024– | 8.0 |
| 20 | Moshe Levi | 1983–1987 | 7.5 |
| 21 | Mordechai Maklef | 1952–1953 | 7.0 |

| # | CHIEF OF STAFF | YEARS | F |
|---|---|---|---|
| 22 | Dan Halutz | 2005–2007 | 6.0 |
| 23 | David Elazar | 1972–1974 | 5.5 |
| 24 | Herzi Halevi | 2023–2024 | 5.0 |

Average: 7.9 · 3 failures (Elazar/Yom Kippur, Halutz/Lebanon 2, Halevi/October 7).

## Appendix D · 16 Police commissioners (1948—2026)

Tab. 38 · Police commissioners

| # | COMMISSIONER | YEARS | F |
|---|---|---|---|
| 01 | Pinhas Kopel | 1964–1972 | 9.0 |
| 02 | Yosef Nahmias | 1957–1964 | 8.5 |
| 03 | Asaf Hefetz | 1998–2004 | 8.5 |
| 04 | Yehezkel Sahar | 1948–1957 | 8.0 |
| 05 | Shaul Rosolio | 1972–1980 | 8.0 |
| 06 | Haim Tavori | 1980–1985 | 7.5 |
| 07 | Yaakov Terner | 1988–1993 | 7.5 |
| 08 | Rafi Peled | 1993–1998 | 7.5 |
| 09 | Shlomo Aharonishki | 2004–2007 | 7.5 |
| 10 | David Cohen | 2007–2011 | 7.5 |
| 11 | Roni Alsheikh | 2015–2018 | 7.5 |
| 12 | Kobi Shabtai | 2019–2023 | 7.5 |
| 13 | David Kraus | 1985–1988 | 7.0 |
| 14 | Yohanan Danino | 2011–2015 | 7.0 |
| 15 | Moti Cohen | 2018–2019 | 7.0 |

| # | COMMISSIONER | YEARS | F |
|---|---|---|---|
| 16 | Yaakov "Kobi" Lev | 2023–2026 | **3.0** |

Average: 7.3 · Lev (2023, Ben-Gvir appointment) broke the average.

## Appendix E · 11 Bank of Israel governors (1954—2026)

Tab. 39 · Bank of Israel governors

| # | GOVERNOR | YEARS | F |
|---|---|---|---|
| 01 | Michael Bruno | 1986–1991 | **9.5** |
| 02 | Stanley Fischer | 2005–2013 | **9.5** |
| 03 | David Horowitz | 1954–1971 | **9.0** |
| 04 | Karnit Flug | 2013–2018 | **9.0** |
| 05 | Yaakov Frenkel | 1991–2000 | 8.5 |
| 06 | Amir Yaron | 2018–2024 | 8.5 |
| 07 | Moshe Sanbar | 1971–1976 | 8.0 |
| 08 | Arnon Gafni | 1976–1981 | 8.0 |
| 09 | David Klein | 2000–2005 | 8.0 |
| 10 | David Barkowitz | 2024– | 8.0 |
| 11 | Moshe Mandelbaum | 1982–1986 | 7.5 |

Average: 8.7 · **the most stable institution** — all 7.5+.

## Appendix F · 11 Presidents of Israel (1949—2026)

Tab. 40 · Presidents of Israel

| # | PRESIDENT | YEARS | F |
|---|---|---|---|
| 01 | Chaim Weizmann | 1949–1952 | **9.5** |

| # | PRESIDENT | YEARS | F |
|---|---|---|---|
| 02 | Shimon Peres | 2007–2014 | 9.0 |
| 03 | Yitzhak Ben-Zvi | 1952–1963 | 8.5 |
| 04 | Ephraim Katzir | 1973–1978 | 8.5 |
| 05 | Yitzhak Navon | 1978–1983 | 8.5 |
| 06 | Chaim Herzog | 1983–1993 | 8.5 |
| 07 | Reuven Rivlin | 2014–2021 | 8.5 |
| 08 | Isaac Herzog | 2021– | 8.0 |
| 09 | Zalman Shazar | 1963–1973 | 8.0 |
| 10 | Ezer Weizman | 1993–2000 | 7.5 |
| 11 | Moshe Katsav | 2000–2007 | 3.0 |

Average: 8.0 · Katsav convicted of rape · Ezer Weizman resigned (bribery).

## Appendix G · 14 Attorneys General (1948—2026)

Tab. 41 · Attorneys General

| # | ATTORNEY GENERAL | YEARS | F |
|---|---|---|---|
| 01 | Haim Cohn | 1950–1960 | 9.5 |
| 02 | Aharon Barak | 1975–1978 | 9.5 |
| 03 | Elyakim Rubinstein | 1997–2004 | 9.5 |
| 04 | Yaakov Shimshon Shapira | 1948–1950 | 9.0 |
| 05 | Gideon Hausner | 1960–1963 | 9.0 |
| 06 | Meir Shamgar | 1968–1975 | 9.0 |
| 07 | Yitzhak Zamir | 1978–1986 | 9.0 |
| 08 | Menachem Mazuz | 2004–2010 | 9.0 |

| # | ATTORNEY GENERAL | YEARS | F |
|---|---|---|---|
| 09 | Moshe Ben-Zeev | 1963–1968 | 8.5 |
| 10 | Yosef Harish | 1986–1993 | 8.5 |
| 11 | Michael Ben-Yair | 1993–1996 | 8.5 |
| 12 | Yehuda Weinstein | 2010–2016 | 8.5 |
| 13 | Avichai Mandelblit | 2016–2022 | 8.5 |
| 14 | Gali Baharav-Miara | 2022– | 8.5 |

Average: **9.0 — the most stable cohort**. Zero convictions. 8 scores of 9.0+.

## Appendix H · 16 Chief rabbis (1948—2026)

Tab. 42 · Chief rabbis

| # | CHIEF RABBI | STREAM | YEARS | F |
|---|---|---|---|---|
| 01 | Isaac Herzog | Ashkenazi | 1936–1959 | **9.5** |
| 02 | Ben-Zion Uziel | Sephardi | 1939–1953 | **9.5** |
| 03 | Ovadia Yosef | Sephardi | 1973–1983 | **9.5** |
| 04 | Shlomo Goren | Ashkenazi | 1973–1983 | **9.0** |
| 05 | Yitzhak Nissim | Sephardi | 1955–1972 | 8.5 |
| 06 | Isser Yehuda Unterman | Ashkenazi | 1964–1972 | 8.5 |
| 07 | Mordechai Eliyahu | Sephardi | 1983–1993 | 8.5 |
| 08 | Israel Meir Lau | Ashkenazi | 1993–2003 | 8.5 |
| 09 | Avraham Shapira | Ashkenazi | 1983–1993 | 8.0 |
| 10 | Eliyahu Bakshi-Doron | Sephardi | 1993–2003 | 7.5 |
| 11 | David Lau | Ashkenazi | 2013–2023 | 7.5 |
| 12 | Shlomo Amar | Sephardi | 2003–2013 | 7.0 |

| # | CHIEF RABBI | STREAM | YEARS | F |
|---|---|---|---|---|
| 13 | Kalman Bar | Ashkenazi | 2024– | 7.0 |
| 14 | Yitzhak Yosef | Sephardi | 2013–2023 | 6.5 |
| 15 | David Yosef | Sephardi | 2024– | 6.0 |
| 16 | Yona Metzger | Ashkenazi | 2003–2013 | **4.0** |

16 selected from 2 streams · average: 7.9 · Metzger convicted of corruption (2017, 3.5 years prison).

## Appendix I · 13 Supreme Court presidents (1948—2026)

Tab. 43 · Supreme Court presidents

| # | PRESIDENT | YEARS | F |
|---|---|---|---|
| 01 | Moshe Zmora | 1948–1954 | **9.5** |
| 02 | Shimon Agranat | 1965–1976 | **9.5** |
| 03 | Meir Shamgar | 1983–1995 | **9.5** |
| 04 | Yitzhak Olshan | 1954–1965 | **9.0** |
| 05 | Aharon Barak | 1995–2006 | **9.0** |
| 06 | Moshe Landau | 1980–1982 | 8.8 |
| 07 | Esther Hayut | 2017–2023 | 8.8 |
| 08 | Yoel Sussman | 1976–1980 | 8.5 |
| 09 | Dorit Beinisch | 2006–2012 | 8.5 |
| 10 | Yitzhak Amit | 2024– | 8.5 |
| 11 | Yitzhak Cohen | 1982–1983 | 8.0 |
| 12 | Asher Grunis | 2012–2015 | 8.0 |
| 13 | Miriam Naor | 2015–2017 | 8.0 |

Average: 8.7 · zero convictions · 3 scores of 9.5.

## Appendix J · 25 greatest Israeli leaders of all time (score 9.5)

Tab. 44 · 25 greatest Israeli leaders ever

| # | LEADER | PRIMARY ROLE |
|---|---|---|
| 01 | David Ben-Gurion | Founding PM |
| 02 | Levi Eshkol | Finance + PM |
| 03 | Pinhas Sapir | Finance (score 10.0) |

| 10 | Ehud Barak | IDF COS + PM |
| 11 | Isser Harel | Shin Bet + Mossad |
| 12 | Meir Dagan | Mossad director |
| 13 | Aharon Barak | AG + Supreme Court president |
| 14 | Elyakim Rubinstein | AG + Supreme Court justice |
| 15 | Meir Shamgar | AG + Supreme Court president |
| 16 | Haim Cohn | AG |
| 17 | Shimon Agranat | Supreme Court president |
| 18 | Stanley Fischer | BOI governor |
| 19 | Michael Bruno | BOI governor |

| # | LEADER | PRIMARY ROLE |
|---|---|---|
| 20 | Pinhas Kopel | Police commissioner |
| 21 | Rabbi Isaac Herzog | Chief Rabbi |
| 22 | Rabbi Ben-Zion Uziel | Sephardi Chief Rabbi |
| 23 | Rabbi Ovadia Yosef | Sephardi Chief Rabbi |
| 24 | Rabbi Shlomo Goren | Chief Rabbi + Military |
| 25 | Levi Yosef | Shin Bet + Mossad |

**21 of 25 lived and served before 2000**. Israeli greatness — primarily 20th-century.

## Appendix K · 20 largest cities · local authority F

Tab. 45 · Top 20 cities by population

| # | CITY | POP. | MAYOR | F |
|---|---|---|---|---|
| 01 | Tel Aviv-Yafo | 475K | Ron Huldai | **18** |
| 02 | Ra'anana | 83K | Haim Broida | **17** |
| 03 | Kfar Saba | 103K | Rafi Sa'ar | **16** |
| 04 | Bnei Brak (Haredi) | 215K | Hanoch Zeibert | **16** |
| 05 | Rishon LeZion | 265K | Raz Kinstlich | 15 |
| 06 | Netanya | 230K | Miriam Feirberg | 15 |
| 07 | Herzliya | 108K | Moshe Fadlon | 15 |
| 08 | Modi'in | 100K | Haim Bibas | 15 |
| 09 | Modi'in Illit (Haredi) | 85K | Yaakov Gutterman | 15 |
| 10 | Haifa | 290K | Yona Yahav | 14 |
| 11 | Petah Tikva | 255K | Rami Greenberg | 14 |
| 12 | Ramat Gan | 165K | Carmel Shama-Hacohen | 14 |

| # | CITY | POP. | MAYOR | F |
|---|---|---|---|---|
| 13 | Ashdod | 237K | Yechiel Lasri | 13 |
| 14 | Beersheba | 215K | Rubik Danilovich | 13 |
| 15 | Holon | 199K | Shaul Levi | 13 |
| 16 | Rehovot | 155K | Rahamim Malul | 13 |
| 17 | Jerusalem | 998K | Moshe Lion | 12 |
| 18 | Ashkelon | 150K | Tomer Glam | 11 |
| 19 | Hadera | 100K | Nir Ben-Haim | 11 |
| 20 | Bat Yam | 130K | Zvika Brot | **10** |

Average: 13.9. Government ILS per resident — Haredi ₪12,500 · Center ₪11,500 · North ₪6,500 · Arab ₪4,500 · Bedouin ₪3,000. Ratio ×4.17 between Haredi and Bedouin.

## Appendix L · 20 top capital tycoons (2026)

Tab. 46 · 20 top capital tycoons

| # | TYCOON | FIELD | CAPITAL (₪B) |
|---|---|---|---|
| 01 | Eyal Ofer (London) | Shipping · real estate | 42 |
| 02 | Patrick Drahi | Telecom (Europe) | 35 |
| 03 | Adelson heirs (Miriam, Sharon) | Casinos · Israel Hayom | 28 |
| 04 | Roman Abramovich | Russian oil | 25 |
| 05 | Len Blavatnik | Chemistry · real estate | 22 |
| 06 | Teddy Sagi | Gambling (888) | 20 |
| 07 | Adam Max Friedman | Technology | 18 |
| 08 | Arnon Milchen | Films · investments | 15 |
| 09 | Zeev Rom | Retail | 12 |

| # | TYCOON | FIELD | CAPITAL (₪B) |
|---|---|---|---|
| 10 | Nochi Dankner | IDB (collapsed, convicted) | – |
| 11 | Yitzhak Tshuva | Energy · real estate | 10 |
| 12 | Mark Angel | Industry | 8 |
| 13 | Ehud Hoffman | Technology | 7 |
| 14 | Rona Tung | Finance | 7 |
| 15 | Avi Levy | Industry | 6 |
| 16 | Rami Levy | Retail | 6 |
| 17 | Gila Almogi | Finance | 5 |
| 18 | Rawha Harel | Insurance | 5 |
| 19 | Avraham Ner | Industry | 5 |
| 20 | Alexander Mechnik | Hi-tech | 5 |

Top 20 total: ~₪260B · private capital in 2015—25 elections: ₪600M+ (disclosed).

## Appendix M · 2027 election candidates · SR ranking

Tab. 47 · 2027 election candidate ranking (SR = Suitability Ranking)

| # | CANDIDATE | BACKGROUND | SR |
|---|---|---|---|
| 01 | Gadi Eisenkot | Former IDF COS | **8.7** |
| 02 | Karnit Flug | Former BOI governor | **8.5** |
| 02 | Ronen Bar | Shin Bet director | **8.5** |
| 02 | Michael Sternger | Economist | **8.5** |
| 05 | Yair Golan | Former general, Meretz | **8.3** |
| 06 | Aharon Haliva | Former AMAN head | **8.2** |
| 07 | Aviv Kochavi | Former IDF COS | **8.0** |

| # | CANDIDATE | BACKGROUND | SR |
|---|---|---|---|
| 07 | Ron Huldai | Tel Aviv mayor | **8.0** |
| 09 | Gideon Sa'ar | New Hope | 7.8 |
| 09 | Merav Michaeli | Labor | 7.8 |
| 11 | Ahmad Tibi | Ta'al | 7.7 |
| 11 | Yair Lapid | Yesh Atid | 7.7 |
| 11 | Benny Gantz | National Unity | 7.7 |
| – | Simcha Rothman | Constitution Committee | **0.5** |
| – | Yariv Levin | Justice | **1.0** |
| – | Itamar Ben-Gvir | National Security | **2.0** |
| – | Bezalel Smotrich | Finance | **2.0** |

Above 8.0 = high SR (suitable for government) · 7.5—8.0 = suitable · below 3.0 = unsuitable (research assessors).

**Appendix summary**: 240+ names with full scoring across 13 tables. Every data point reproducible from animated-eureka under MIT license. The 2027 candidate ranking is an **independent indicator** based on Suitability Ranking methodology — not an election forecast.

## 24 Finding · Key findings

The five aggregate findings drawn from the analyses above. Each finding is detailed in its relevant section.

1 **Exponential F decline, ×170 over 78 years.**

A repeated trend, not an event. The curve is similar across the three main periods (1948—67, 1967—95, 1995—2026).

2 **One third of public institutions below collapse threshold.**

Police (F=5), Southern Command (8), State Prosecution (8), Rabbinate (8), Education (10), Welfare (10). Collapse threshold: F=12.

3 **65% of social sectors in collapse.**

Gaza Palestinians F=0.1, Bedouin F=1, native secular F=1.7, Muslim Arab F=2.5. Internal variance: ×267.

4 **Netanyahu-era cumulative damage: ₪2 trillion.**

Net NFI ₪−666B · ID ₪−210B · accumulated debt ₪735B. Total approximately 93% of one annual GDP.

5 **The citizen is ×14 the government.**

Average citizen F: 8.5. Government 37 F: 0.6. Israel's fate is not in the hands of those who govern — but in the hands of those who elect them.
